Prince Henry "the Navigator" Peter Edward Russell 2000-01-01 Henry the Navigator is a legendary, almost mythical, figure in late medieval history. Together with Columbus he was considered one of the progenitors of 'modernity', a man who dared to challenge the scientific assumptions of his age and by so doing was responsible

for liberating Europeans from the geographical constraints which had bound them since the collapse of the Roman Empire. His image as imperialist and, above all, maritime, mathematical, and navigational pioneer has been slow to die. Yet there has been no English life of this 'hero of both science and of action' since Beazley's of 1895. This book, therefore, represents the first re-evaluation of his life in over a century. Peter Russell has made use of much recently published documentary evidence to provide an eloquent, sophisticated and highly readable account of Henry's life. While full attention is given to all aspects of his voyages of discovery in the African Atlantic, including their economic and cultural consequences and the difficult questions of international law and papal jurisdiction, Russell also examines in detail the other spheres of activity which contributed to his fame, or sometimes brought it into question

Matthew Fontaine Maury, Father of Oceanography John Grady 2015-01-12 In becoming "a useful man" on the maritime stage, Matthew Fontaine Maury focused on the ills of a clique-ridden Navy, charted sea lanes and bested Great Britain's admiralty in securing the fastest, safest routes to India and Australia. He helped bind the Old and New worlds with the laying of the transatlantic cable, forcefully advocated Southern rights in a troubled union, and preached Manifest Destiny from the Arctic to Cape Horn. And he revolutionized warfare in perfecting electronically detonated mines. Maury's eagerness to go to the public on the questions of the day riled powerful men in business and politics, and the U.S., Confederate and Royal navies. He more than once ran afoul of Jefferson Davis and Stephen R. Mallory, secretary of the Confederate States Navy. But through the political, social and scientific struggles of his time, Maury had his share of powerful allies, like President John Tyler.
