Falend licht Stephen Holmes 2019-10-17 Ivan Krastev en Stephen Holmes geven in Falend licht een scherpzinnige analyse van onze politieke cultuur. Het idee, de belofte, was dat Oost-Europese landen na de val van de Muur steeds meer op West-Europa zouden gaan lijken. Maar anno 2019 worden we wakker in een wereld waarin het Westen juist steeds meer inspiratie lijkt te putten uit de antiliberale populistische leiders uit de voormalige Sovjet-Unie. Ergens is iets verschrikkelijk misgegaan, dat staat vast. In dit briljante boek, dat zowel politieke psychologie, geopolitieke analyse als cultuurkritiek is, laten Krastev en Holmes overtuigend zien dat we terug moeten naar

1989 om de wereld van vandaag te begrijpen. In dat jaar werd Oost-Europa min of meer verplicht het westerse liberale model over te nemen. De wrok hierover resulteerde uiteindelijk in het xenofobe populisme van vandaag. Ironisch genoeg lijken de rollen nu omgedraaid. Het einde van de geschiedenis bleek het begin van het tijdperk van imitatie.

The Effect of the 1958 New York Convention on Foreign Arbitral Awards in the Arab Gulf States Reyadh Mohamed Seyadi

2017-08-21 In the second half of the twentieth century, alongside the evolution of the global economy, modern technology, rapid transportation and multinational enterprises, there was an increased demand for a dispute resolution mechanism that met the needs of traders, international trade and economic policy-makers. Arbitration as an alternative dispute resolution has significantly gained in popularity in the Arab Gulf States over the past two decades or so. This is no doubt reason enough to take a closer look at the main theme that defines arbitration in this region. National courts of the Arab Gulf states are invariably seen as not very arbitration friendly, some possibly even hostile to arbitration. Public order, alongside the Islamic legal traditions, is seen as unruly horse that could possibly undermine the development of international commercial arbitration in this region. The contribution in this book will go some way toward dissipating the concerns that are routinely raised about the procedural and practical soundness of arbitration in the Arab Gulf states. In addition, the book serves to place arbitration in the Arab Gulf states in its present legal systems, national laws and courts practices.

Comparative Company Law Andreas Cahn 2018-09-30 When comparing the laws of different jurisdictions, one often sees only the forest or the trees. This is particularly problematic in comparative company law, where students hope both to understand the overall framework of the law and grasp its practical application. This text's structure, now in its second edition, solves that dilemma. Chapters open with discursive analyses of the law in each of Germany, the UK and the US (Delaware, the ABA Model Business Corporation Act, and federal securities laws) and set out the high-level governing framework, particularly for the EU and its member states. This analysis is succinct and pointed, with numerous references to both the law and leading scholarship. The whole text is arranged to highlight comparative aspects. Diagrams are used where helpful. Chapters close with edited judicial decisions from at least two of the jurisdictions discussed, which allows fresh exploration of comparison in more detail, and pointed questions to guide class discussion.

Inleiding tot de rechtsvergelijking Walter Pintens 2003-02-12

Deze inleiding tot de rechtsvergelijking wil de student vertrouwd maken met de algemene beginselen van de rechtsvergelijkende methode en hem inleiden in de kennis van het buitenlands recht. In het eerste deel worden het voorwerp en de eigenheid, de raakpunten en het onderscheid met de verschillende rechtsdisciplines besproken, wordt de historische ontwikkeling geschetst, het nut van de rechtsvergelijking met haar mogelijkheden en grenzen besproken. Vervolgens wordt aandacht besteed aan het onderscheid tussen micro- en macrovergelijking, aan de vergelijkende methodes en aan de indeling in rechtsfamilies. Het tweede deel brengt een overzicht van enkele belangrijke rechtsstelsels: het Franse, Duitse, Engelse, Amerikaanse, Japanse en islamitische recht. Elk rechtsstelsel wordt uiteengezet aan de hand van de belangrijkste historische ontwikkelingen, de beschrijving en evaluatie van de rechtsbronnen, de staatsstructuur, de gerechtelijke organisatie en de uitstraling van het rechtssysteem. De rechtsbronnen worden in hun historisch perspectief gesitueerd. Inhoudelijk worden enkele rechtsfiguren kort besproken, die typisch zijn voor

het bestudeerde rechtsstelsel. Deze macroanalyse van de rechtsstelsels mondt uit in een kort onderzoek naar de toenadering van de rechtsstelsels dat het inzicht in de materie dient te bevorderen door het duidelijker stellen van de verschillen en door het identificeren van de schijntegenstellingen. Deze inleiding heeft dus geenszins de bedoeling de lezer een exhaustieve kennis van het buitenlands recht bij te brengen. Dit handboek is geen encyclopedie. Het wil veel meer de lezer een kijk geven op de betekenis en op het nut maar ook op de gevaren van de rechtsvergelijking. Daarenboven wil ze de lezer niet alleen vertrouwd maken met de grote structuren, maar ook met de geest van de belangrijkste buitenlandse rechtsstelsels. Alhoewel bij de bestudering van de rechtsstelsels de privaatrechtelijke ontwikkelingen centraal staan, worden ook de staatsstructuren en de gerechtelijke organisatie beknopt besproken. In dit laatste kader komen soms ook enige aspecten van het straf- en het strafprocesrecht aan bod.

Non-State Rules in International Commercial Law Johanna Hoekstra 2021-03-16 Through further technological development and increased globalization, conducting business abroad has become easier, especially for Small and Medium Enterprises (SME). However, the legal issues associated with international commerce have not lessened in complexity, including the role of non-state rules. The book provides a comprehensive analysis of non-state rules in international commercial contracts. Non-state rules have legal authority in the national and international sphere, but the key question is how this legal authority can be understood and established. To answer this question this book examines first what non-state rules are and how their legal authority can be measured, it then analyses how non-state rules are applied in different scenarios, including as the applicable law, as a source of law, or to interpret either the law or the contract. Throughout this analysis three other important questions are also answered: when can non-state rules be applied? when are they applied? and how are they applied? The book concludes with a framework and classification that leads to a deeper understanding of the legal authority of non-state rules. Providing a transnational perspective on this important topic, this book will appeal to anyone researching international commercial law. It will also be a valuable resource for arbitrators and anyone working in international commercial litigation.

Business Law Jamie Darin Prenkert 2021-03 "This is the 18th Edition (and the 24th overall edition) of a business law text that first appeared in 1935. Throughout its more than 80 years of existence, this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject

regulatory materials into a business law textbook, defining the "legal environment" approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and the law of an increasingly digital world. The 18th Edition continues to emphasize change by integrating these four areas into its pedagogy"--
