Verpleegkundige Interventies Gloria Bulechek 2016-05-05 'Verpleegkundige interventies' is de vertaling van 'Nursing Interventions Classification (NIC)'. Deze vierde, herziene Nederlandse editie is gebaseerd op de zesde Amerikaanse druk. Het boek biedt een gestructureerde indeling (taxonomie) van verpleegkundige handelingen en verrichtingen. De belangrijkste kenmerken van de NIC zijn: - volledigheid: meer dan 500 interventies; - evidence-based; - vanuit de bestaande praktijk ontwikkeld; - weerspiegelt de actuele klinische praktijk en recent onderzoek; - duidelijke en klinisch zinvolle terminologie; - in het veld getoetst; - gecombineerd met de NANDA-diagnoses.

Lippincott Illustrated Reviews: Pharmacology Karen Whalen 2018-09-29 Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. **Lippincott Illustrated Reviews: Pharmacology, Seventh Edition**, is the updated, enhanced version of the student-favorite resource for essentials of medical pharmacology. The first-and-best resource, the Lippincott Illustrated Reviews series features clear, effective writing and hundreds of illustrations for ideal rapid review and the assimilation of complex information. Clear, sequential images present mechanisms of action and focus on showing rather than telling students how drugs work.

Lippincott's Textbook for Nursing Assistants Pamela J. Carter 2007-06-01 Now in its Second Edition, this textbook prepares students to work as nursing assistants in long-term care, acute care, and home health care settings, and provides a firm foundation for advancement to an LPN and ultimately an RN role. The book is written in a direct, conversational writing style with an emphasis on professionalism and humanism. This edition is significantly updated and has new photographs and illustrations. A front-of-book CD-ROM includes an audio glossary. An audiobook version of the entire text in MP3 format is available as a separate purchase. A student-edition DVD, containing selected procedures from Lippincott's Video Series for Nursing Assistants, is also available as a separate purchase.

Biomechanica van het spier-skeletstelsel Chris J. Snijders 2017-07-14 Het succesvolle Amerikaanse boek Basic biomechanics of the skeletal system is inmiddels verschenen in onder andere de Zweedse, Chinese en Japanse vertaling. Ook de Nederlandse vertaling en bewerking werd enthousiast ontvangen. Deze vierde, licht gewijzigde druk van Biomechanica van het spier-skeletstelsel geeft opnieuw op heldere wijze en met vele illustraties inzicht in de belangrijkste biomechanische begrippen die men tegenkomt in de diagnostiek, de behandeling, de revalidatie en de preventie van letsels van het bewegingsapparaat. Het boek bevat hoofdstukken over heup, knie, enkel, voet, schouder, elleboog, pols, hand, halswervelkolom, lendewervelkolom en bekken. Hierin worden de mechanische eigenschappen besproken van bot, kraakbeen, pezen en ligamenten. Bovendien worden er relaties gelegd tussen een ongunstige belasting en het ontstaan van klachten, zoals lage rugpijn en een tenniselleboog. Biomechanica van het spier-skeletstelsel bevat veel voorbeelden uit de praktijk, die bijeen zijn gebracht door een orthopedisch chirurg, een fysiotherapeut en een ingenieur. Lichaamshouding staat centraal bij de onderwerpen bukken en tillen, staan, zitten en liggen. De houding van

het lichaam houdt immers ten nauwste verband met de eisen die men moet stellen aan schoenen, stoelen, bedden en werkplekken. De veelheid aan informatie maakt het boek geschikt als leerboek voor verscheidene studierichtingen (medici en paramedici). Zelfstudie wordt vergemakkelijkt door middel van oefenopgaven met essay- en multiple-choicevragen. Prof.dr.ir. C.J. Snijders, de Nederlandse vertaler en bewerker van deze publikatie, is als hoogleraar verbonden aan het Erasmus MC, Universitair Medisch Centrum Rotterdam en aan de Faculteit Industrieel Ontwerpen van de Technische Universiteit Delft. Hij publiceerde talrijke wetenschappelijke artikelen in nationale en internationale tijdschriften.
