Institutional Learning and Knowledge Transfer Across Epistemic

Communities Elias G. Carayannis 2011-11-25 Over the past several decades, as the pace of globalization has accelerated, operational issues of international coordination have often been overlooked. For example, the global financial crisis that began in 2007 is attributed, in part, to a lack of regulatory oversight. As a result, supranational organizations, such as the G-20, the World Bank, and the International Monetary Fund, have prioritized strengthening of the international financial architecture and providing opportunities for dialogue on national policies, international co-operation, and international financial institutions. Prevailing characteristics of the global economic systems, such as the increasing power of financial institutions, changes in the structure of global production, decline in the authority of nation-states over their national economy, and creation of global institutional setting, e.g., global governance have created the conditions for a naturally evolving process towards enabling national epistemic communities to create institutions that comply with global rules and regulations can control crises. In this context, transfer of technical

knowledge from the larger organizations and its global epistemic communities to member communities is becoming a policy tool to “convince” participants in the international system to have similar ideas about which rules will govern their mutual participation. In the realm of finance and banking regulation, the primary focus is on transfer of specialized and procedural knowledge in technical domains (such as accounting procedures, payment systems, and corporate governance principles), thereby promoting institutional learning at national and local levels. In this volume, the authors provide in-depth analysis of initiatives to demonstrate how this type of knowledge generated at the international organization level, is codified into global standards, and disseminated to members, particularly in the developing world, where the legal and regulatory infrastructure is often lacking. They argue that despite the challenges, when a country intends to join the global system, its institutions and economic structures need to move toward the global norms. In so doing, they shed new light on the dynamics of knowledge transfer, financial regulation, economic development, with particular respect to supporting global standards and avoiding future crises.

Leadership and Communication Sinan Ünsar 2014-05-20 This book deals with the concepts of leadership and communication in business organizations, initially on a general level and then in detail through an analysis of specific cases. First the book provides a contextual framework to explain the role and importance of the topic. The foundation is provided by selected behavioural and situational theories. Then 15 different leadership models and their respective communication strategies are specified. The interaction of leadership and communication is examined explaining organizational communication and its tools. In the third part the book looks in detail at the glass, textile and confection industries. It examines the relationship between socio-demographic variables of employees, leadership types and communication styles and systems of managers in these sectors. The results of this study provide researchers and professionals with a number of suggestions

for more effective organizational communication and better leadership practice.

Integrating Business Management Processes Titus De Silva 2020-08-18

Integrating Business Management Processes: Volume 2: Support and Assurance Processes (978-0-367-48548-1) Shelving Guide: Business & Management The backbone of any organisation is its management system. It must reflect the needs of the organisation and the requirements of its customers. Compliance with legal requirements and ethical environmental practices contributes towards the sustainability of the management system. Whatever the state of maturity of the management, this book, one of three, provides useful guidance to design, implement, maintain and improve its effectiveness. This volume provides a comprehensive coverage of the key support and assurance processes. Topics include document control, communication, marketing, information systems and technology, human resource management, training and development, customer relations management, financial management and measurement and analysis to name a few. This book, with its series of examples and procedures, shows how organisations can benefit from satisfying customer requirement and the requirements of ISO standards to gain entry into lucrative markets. Titus De Silva is a consultant in management skills development, pharmacy practice, quality management and food safety and an advisor to the newly established National Medicines Regulatory Authority (NMRA) in Sri Lanka.

Consultation for Organizational Change Revisited David W. Jamieson 2016-03-01 As a follow-up to a 2010 volume on organizational change-related consulting, the book continues to push our thinking about the dynamics involved in consulting with change leaders and intervening in the change process. Consulting for organizational change is a special type of consultation, with its own complex set of conditions and needs for a broad range of skills and competencies, which include distinct needs for the client-consultant

relationship, superior consulting/facilitation skills, an expertise in human and organizational systems, and, as emphasized in the volume, the masterful “use of self.” As with our prior edited collection, this volume is a joint publication in the Research in Management Consulting and Contemporary Trends in Organization Development and Change book series. The dual focus is intended to reflect the importance of quality consulting for change across both the management consulting and Organization Development (OD) fields. It follows a long history of interest in how consulting affects organization change, what works, and, perhaps most importantly for generating theory and insight into the change process, why it works. The book contains fourteen chapters that frame the changing nature of the organizational change challenge, explore the use of self in intervening in organizations, and examine different change frameworks and perspectives, sharing various reflections and personal insights into the underlying challenges of consulting to bring about organizational change. Our underlying goal is to advance the theory and practice of effective organizational change consultation, stimulating thinking and discussion among change practitioners and researchers so that this work and profession continue to grow and evolve. ENDORSEMENT: “Consultation for Organization Change Revisited offers a clear map of the dominant thinking about how consultants intervene to help organizations create an alternative future. It nicely answers the question of “What is Organization Development.” It also has a memory so that you see the arc of the field over time, which gives an important perspective. Organization change is complicated work, this book makes it clearer.” ~ Peter Block Author of Flawless Consulting

Empowerment Series: Generalist Practice with Organizations and Communities Karen K. Kirst-Ashman 2016-12-05 EMPOWERMENT SERIES: GENERALIST PRACTICE WITH ORGANIZATIONS AND COMMUNITIES, 7th Edition is designed to help students better understand the dynamics of macro practice, and develop the competencies and practice

behaviors required by the Council on Social Work Education's (CSWE) latest Educational Policy and Accreditation Standards (EPAS). Authors Karen Kirst-Ashman and Grafton Hull are adept at creating interesting, realistic cases and practical examples that are skillfully woven into the main text. In clear and accessible writing, they emphasize the practical skills students will need to work effectively in the area of macro practice -- providing leadership, working with supervisors, managing conflict, working with the media, using new technological advances, fundraising, grant writing, and managing stress. The text continues to emphasize the connections between working for change in organizations and communities and the skills used in other generalist practice courses. Effective Entrepreneurial Management Robert D. Hisrich 2016-12-23 This textbook provides a comprehensive overview of the essential issues in effective entrepreneurial management. It first introduces readers to the fundamentals of entrepreneurial management, the nature of entrepreneurial managers and business planning, before exploring the specific topics of creativity and innovation, risk management, entrepreneurial marketing and organization as well as financing. The authors then move to contemporary topics such as entrepreneurial growth strategies, e-commerce challenges, ethical and socially responsible entrepreneurial management, franchising, and managing entrepreneurial family ventures. Each chapter provides a case study and several practice-based examples to help explain the concepts. By providing a truly international approach, this text offers ample theoretical and empirical insights into entrepreneurship and small business management. It is a valuable and up-to-date resource for teachers and students of entrepreneurship.

Health Program Management Beaufort B. Longest, Jr. 2014-10-13 "Teaches

students and managers how to develop, lead, and evaluate health programs to ensure quality outcomes. The focus is on the three core management concepts of strategy, design, and leadership, but time is also devoted to describing facilitative management activities integral to successful programs. Students will learn techniques for communication, decision-making, quality assurance, marketing, and program evaluation within the structure of the textbook's program management model"--Provided by publisher.

Diversity within Diversity Management Andri Georgiadou 2019-04-10 This book enhances our understanding as to how diversity and equality are managed in different national contexts. Focusing on workplace equality, diversity, and inclusion, this book brings together a unique blend of scholarly research and professional practice, evidenced through an array of individuals both outside and inside organizations.

Managing Nonprofit Organizations Mary Tschirhart 2012-07-10 MANAGING NONPROFIT ORGANIZATIONS This essential resource offers an overall understanding of nonprofits based on both the academic literature and practitioner experience. It shows how to lead, manage, govern, and structure effective and ethical nonprofit organizations. *Managing Nonprofit Organizations* reveals what it takes to be entrepreneurial and collaborative, formulate successful strategies, assess performance, manage change, acquire resources, be a responsible financial steward, and design and implement solid marketing and communication plans. "Managing Nonprofit Organizations is the only introductory text on this subject that manages to do three critical things equally well: It's comprehensive, covering all the key topics leaders of NPOs need to know about; it's practical, providing lots of examples, case incidents, and experiential exercises that connect the content to the real world; and, best of all (and most unique compared to others), it's research-based, drawing on the latest and best empirical studies that look into what works and doesn't work in the world of nonprofit management." —Vic

Murray, professor, School of Public Administration, University of Victoria
"This book is a rarity—a text that can be used both as the focus for academic study and as a source of stimulating ideas for those practitioners who want to explore theories about management and how they can be applied so they can do a better job. Tschirhart and Bielefeld have explained all aspects of nonprofit management and leadership in a way that will stimulate as well as inform."

—Richard Brewster, executive director, National Center on Nonprofit Enterprise, Virginia Tech University "Managing Nonprofit Organizations presents a comprehensive treatment of this important topic. The book satisfies the competencies and curriculum guidelines developed by NASPAA and by NACC and would be ideal for instruction. The book maintains its commitment to informing management and leadership throughout the nonprofit sector."

—Jeffrey L. Brudney, Albert A. Levin Chair of Urban Studies and Public Service, Cleveland State University "This is an important book, written by two of the leading scholars in the nonprofit studies field. Nonprofit managers, board members, funders, educators, and others will find *Managing Nonprofit Organizations* extremely valuable." —Michael O' Neill, professor of nonprofit management, University of San Francisco "Here's the book that my students have been asking for—just the right mix of theory presentation, research findings, and practical suggestions to serve the thoughtful nonprofit management practitioner. It will inform, instruct, and ultimately, inspire."

Building Management Skills: An Action-First Approach Richard L. Daft
2013-01-01 Daft and Marcic's action-first approach turns the traditional learning model on its end. Instead of starting with concepts and moving to application, this text starts with application, an introductory problem or challenge that encourages you to first empty out your ideas so you are ready to understand new ideas and acquire new skills. Each chapter provides a menu of resources for engagement, application, and learning, everything you need to develop the spot-on management skills you'll need to be a successful manager. This new learning philosophy leads you through a seven-step learning process: 1. Manager Challenge, 2. Initial Response, 3. Discover Yourself, 4. Discover Knowledge, 5. Action Learning Exercises, 6. Test Your Mettle, and 7. Personal Skills Log. Shorter, highly-focused chapters take you through each of these seven steps, allowing you to capture the essence and critical points for each topic. The mass of research material has been condensed and focused into discrete learning packages (chapters) designed specifically for engagement. BUILDING MANAGEMENT SKILLS offers a unique new set of Challenge Videos that are specifically designed to help develop your decision-making and thinking skills. After you watch the video challenge you are asked to respond to the challenge by solving the problem, helping you see the relevance of the chapter material and answering the question Why do I need to know this material?. These innovative, decision-making Challenge Videos are also available in CengageNOW. Organized around a new learning philosophy, with new technology and a coherent learning package for you to acquire management skills through an active first do, then learn approach, Daft and Marcic have created a truly unique learning experience with

BUILDING MANAGEMENT SKILLS. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Family Businesses in Transition Economies Léo-Paul Dana 2015-03-25 This book presents the reader a comprehensive understanding of the development of family business in transitional economies. Throughout eastern Europe, post-Communist countries transitioning to market-based economies are obtaining a variety of results due to diverse policy approaches. Expert contributions in this book draw from a wealth of information in this context and include thought-provoking policy prescriptions for the future. This book concentrates on the challenges to predict the direction emerging markets will take, particularly when dealing with the wide-ranging social and economic situations taking place in post-Communist Eastern Europe. This reference volume for policymakers, educators, investors, and researchers also provides a much-needed and timely survey of family firms in the transitioning markets of post-Communist Europe.

Projects, Government, and Public Policy Stanisław Gasik 2022-11-25 Many governments have effectively organized public project implementation systems in their jurisdictions. At the same time, many other countries remain at a less advanced level of public project management. Globally, there is a need for project management knowledge to be transferred between governments. However, no systematic review of these practices has been developed to date. *Projects, Government, and Public Policy* was written to fulfill this need and presents a review of project management practices in countries with developed project-based capabilities. This book uses its own rigorous model to present this review systematically. This book's practical purpose is to give a structured overview of government-level project management practices. This knowledge can be used in the work of governments to improve the management of public projects and the

implementation of public policies. Many professionals working in public institutions understand project management concepts differently than project management professionals. Therefore, this book begins with a chapter that describes the differences between the conceptual basis of public administration and project management. The body of this book has five parts. Part I is mainly intended for those involved in government and public administration who want to acquire or increase knowledge about project management. Part II provides an overview of the basic concepts from the theory of public administration, public policies, and development management. Part III describes what makes public projects unique and the success factors specific to projects of this sector. Knowledge about effective government project management practices is covered in Part IV. The concluding Part V begins with a general overview of the maturity model concept. Its main part covers the description of a maturity model showing ways to systematically improve the implementation of public projects. This book is written for governments and government administrators, including the most influential decision-makers, who craft policies to guide a country's development as well as how to implement projects. This book is also intended for supporters and enthusiasts of project management in government and public administration by providing them with a description of the solutions used by project management in public administration. This book is intended, too, for all project management practitioners working for public projects: project managers, team members, sponsors, and middle-level executives of project-delivering private companies. By knowing public administration concepts, they can manage their projects better and use a common language with their clients.

The Routledge Handbook of Maritime Management Photis M. Panayides 2019-04-30 This handbook provides a wide-ranging, coherent, and systematic analysis of maritime management, policy, and strategy development. It undertakes a comprehensive examination of the fields of management and

policy-making in shipping by bringing together chapters on key topics of seminal scientific and practical importance. Within 21 original chapters, authoritative experts describe and analyze concepts at the cutting edge of knowledge in shipping. Themes include maritime management and policy, ship finance, port and maritime economics, and maritime logistics. A study examines the determinants of ship management fees. Aspects of corporate governance in the shipping industry are reviewed and there is a critical review of the ship investment literature. Other topics featured include the organization and management of tanker and dry bulk shipping companies, environmental management in shipping with reference to energy-efficient ship operation, a study of the BIMCO Shipping KPI standard, utilizing the Bunker Adjustment Factor as a strategic decision-making instrument, and slow steaming in the maritime industry. All chapters are written to provide implications for further advancement in professional practice and research. The Routledge Handbook of Maritime Management will be of great interest to relevant students, researchers, academics, and professionals alike. It provides abundant opportunities to guide further research in the areas covered but will also initiate and inspire effective maritime management.

Reality Therapy and Self-Evaluation Robert E. Wubbolding 2017-03-27 This unique resource discusses the core concepts of self-evaluation and the WDEP system of reality therapy, and answers the commonly asked question: "How do I intervene with clients who appear to be unmotivated to make changes in their behavior?" Choice theory/reality therapy expert Robert Wubbolding provides mental health professionals with skill-building strategies for helping clients better self-evaluate, embrace the change process, and make more effective life choices. Detailed interventions and sample counselor-client dialogues throughout the book illustrate work with clients dealing with posttraumatic stress, anger issues, grieving and loss, self-injury, antisocial behavior, career concerns, relationship problems, and more. Dr. Wubbolding's

techniques are readily applicable to mental health and educational settings, with cross-cultural application to clients of various ages. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

Management of Shipping Companies Ioannis Theotokas 2018-04-19 The maritime sector is dynamic and volatile, creating the need for continuous monitoring of the latest developments and their effects on the organisation, management and strategies of shipping companies. This book analyses the business environment of these companies and the approaches they adopt in organising and managing their activities. *Management of Shipping Companies* aims to facilitate the learning and understanding of the fascinating world of shipping business. It examines the organisation and management of companies which manage ocean-going ships, emphasising the special characteristics of the industry and the framework created by these. This textbook offers a detailed account of the companies' processes and functions, the structural and contextual dimensions of their organisation, as well as an analysis of human resources, safety management and the outsourcing of shipping operations. Written in an easily digestible and critical manner, it includes case studies and analysis of best practices implemented by companies worldwide. This unique and accessible book is an ideal text for students in maritime studies programs as well as readers interested in learning about maritime businesses' organisation and management.

Leading, Growing, and Sustaining God's Church Clarence Duff Ph.D. 2021-07-13 Focusing on what facilitates effective leadership, church growth, and retention, this book sets forth a process-oriented framework for understanding the dynamics of church growth and what works for and against it. The author, who is currently serving as the senior pastor of a local church in the City of Brampton, Ontario, for more than twenty years, highlights basic concepts and practices related to church leadership and growth. He considers questions such as: Why do some churches grow in numbers while others lag? What are the dynamic processes, strategies, and pathways that underlie effective leadership, church growth, and retention? How can the answers to these questions inform endeavors to increase and retain church membership? The author also asks if it's true that God is in partnership with his leaders, why are so many of our local churches not growing but declining? The world the church was established in more than two thousand years ago is not the world we live in today. Rethink what it means to lead, grow, and retain membership in a changing world with this important book.

Handbook of Research on Management and Organizational History Kyle Bruce 2020-04-24 Emerging from what was a somewhat staid sub-discipline, there is currently a battle for the soul of Management and Organizational History (MOH), at the centre of which is a widespread concern that much recent work has been more about how one should or might do history rather than actually doing historical work. If ever there was a time for a new volume on MOH, this is certainly it.

Authors Karen Kirst-Ashman and Grafton Hull are adept at creating interesting, realistic cases and

practical examples that are skillfully woven into the main text. In clear and accessible writing, the authors emphasize the practical skills students will need to work effectively in the area of macro practice--providing leadership, working with supervisors, managing conflict, working with the media, using new technological advances, fundraising, grant writing, and managing stress. ~~Making Sense of Media: Resource Management within the~~ product description or the product text may not be available in the ebook version.

EJBRM Volume 9 Issue 2

Malcolm Warner

2013-09-13 This edited work attempts to 'make sense' of recent developments in the field of Human Resource Management in the People's Republic of China. It attempts to see how the paradoxes and contradictions engendered by contemporary Chinese society are being resolved in the enterprises and workplaces of the Middle Kingdom. The book starts with an overview of the literature, then follows with a selection of micro-oriented, concerned with topics like recruitment and retention, then macro-oriented empirical studies, a number of the latter dealing with strategic as well as performance issues, with last, those comparing sets of societal cultural values. It attempts a synthesis of what has emerged from recent research on the 'harmonious society'. These contributions from authors based in universities in eight countries, in Australia, Canada, China, Hong Kong, Japan, Taiwan, United Kingdom and USA, cover a wide range of research on HRM, from the micro- to the macro-. Six of them teach and/or research at campuses on the Mainland. Their empirical, field-based research covers the last half-decade and presents a robust picture of both what practitioners have adopted and how researchers have tried to 'make sense' of what they have investigated. This book was based on a special issue of Intl Journal of Human Resource Management.
