## Introduction

The AWS Certified Solutions Architect - Associate (SAA-C03) exam is intended for individuals who perform in a solutions architect role. The exam validates a candidate's ability to use AWS technologies to design solutions based on the AWS Well-Architected Framework. The exam also validates a candidate's ability to complete the following tasks:

*Platform team roles and responsibilities - ServiceNow*

Note: This role can be thought of as a junior platform administrator. 4.  
What are the additional roles and responsibilities to consider for my core platform team? The roles and responsibilities below should be considered as part of the core platform team but are often performed by other roles,

especially in smaller organizations.

DPUS: ACCELERATION THROUGH DISAGGREGATION - Dell

packets. Later solutions invested more in the processing capabilities on the NIC allowing it to offload crypto functions as well. The term SmartNIC started to surface within the IT community to describe these devices, as well as some other vendor-specific terms. However, the industry lacked a standard vendor-
