In addition to biographies, extensive country information (primarily postindependence), and historical events, the encyclopedia treats general topics in articles such as agriculture, political systems, and religion and ritual.

Access to History for the IB Diploma: The Cold War: Superpower tensions and rivalries (20th century) Study and Revision Guide:

Paper 2 Russell Quinlan 2018-09-10 Exam board: International Baccalaureate Level: IB Diploma Subject: History First teaching: September 2015 First exams: Summer 2017 Reinforce knowledge and develop exam skills with revision of key historical content, exam-focused activities and guidance from experts as part of the Access to History Series. · Take control of revision with helpful revision tools and techniques, and content broken into easy-to-revise chunks. · Revise key historical content and practise exam technique in context with related exam-focused activities. · Build exam skills with Exam Focus at the end of each chapter, containing exam questions with sample answers and examiner commentary, to show you what is required in the exam. *The Movie Guide* James Pallot 1995 *The Movie Guide* is the most comprehensive, in-depth film reference available in a single volume - the indispensable sourcebook for movie buffs and film scholars alike. Collected from the vast databases of CineBooks, the world's leading film authority, *The Movie Guide* provides key information not available in other single-volume guides. With longer, more detailed reviews and fascinating film facts, this easy-to-use, alphabetized guide covers well over 3,000 of the most important films ever made - from accepted classics such as *Citizen Kane* and *Schindler's List*, to cult hits and "sleepers" like *The Crying Game* and *Strictly Ballroom*, to the most-

talked-about films of the year. Whether it's foreign films or The Flintstones, every movie fan will applaud The Movie Guide's in-depth coverage and special features: Comprehensive reviews - with detailed plot synopses and probing critical insights, often supplemented by special anecdotal material not found in other film guides. Complete cast listings - including major cast information (up to ten main actors) and the names of the characters played. Academy Awards - the special honors that each film has received. Not only the winners in every category, but the nominees as well. Top creative credits - including director, producer, cinematographer, editor, art director, music composer, costume designer, special effects, and more. Essential for the true fan who appreciates the collaborative nature of film. Production information - crucial film facts such as year of release, running time, distributor, production company, country of origin, and color code. Rating systems - not only the MPAA rating (essential for family viewing), but a special star ratingsystem based on the film's overall critical merit.

Magill's Guide to Military History: Peq-Tri John Powell 2001 "Salem Press's five-volume 'Magill's Guide to Military History' presents a survey of the wars, battles, peoples, groups, and civilizations that played an important role in worldwide military history from ancient times to the twenty-first century. In addition to comprehensive coverage of Western military history, the encyclopedia examines the major military events,

personages, and civilizations of the entire world from the beginning of military history ..." Includes: Time Line of Wars and Battles, Wars and Battles by Geographical Area, Military Leaders by Geographic Area, and List of Entries by Category,

Civil War in Siberia Jon Smele 1996 This book traces the clash between the 'Reds' of the Moscow-based Soviet regime and the 'Whites', the militaristic, counter-revolutionary governments.

Godwar: Hell Rising D.K. Cherian 2013 Life. This is an area about which man has the greatest knowledge. However it is only a pit stop for the human race. What lies before and beyond this little pit stop is open to heavy debate. In fact most people take birth to be the beginning. Death on the other hand is spoken of as being either a full stop for the person or a continuation of life's journey to somewhere in the unknown. This has given rise to religion. A set of rules was created to explain the unexplainable and this code of morals governed our journey to either a wondrous existence in Heaven or to the fiery confines of Hell. But this book is not dealing with theology. It relates to History Egyptian History to be more specific it is the chronicle of events that unfolded during the reign of King Hatshepsut of the Egyptian Empire almost one thousand five hundred years before the birth of Christ. To understand the ancient Egyptians, we must grasp their concepts of earth, heaven and hell. Their life was ruled by their religion.

The Living Age ... 1867

De kunst van het oorlogvoeren Sun-tzu 2015-04-09 De kunst van het oorlogvoeren blijft hét meesterwerk van Sun-Tzu gezien de belangrijke factor die oorlog speelt in de geschiedenis, maar ook blijvend actueel blijft in de huidige tijd. Oorzaak hiervan is natuurlijk de 'oorlogszomer' van 2014. Het boek bevat Sun-Tzu's essays die de oudst bekende verhandelingen over het onderwerp beschrijven. Deze teksten zijn nooit overtroffen wat omvang en diepte betreft. De meerwaarde van dit boek is dat zijn gedachtegoed is voorzien van een helder geschreven commentaar. Door het meesterlijke strategische inzicht van meester Tzu geldt de toepasbaarheid van het boek ook voor het bedrijfsleven en is dit boek een goede aanbeveling voor managers, bestuurders en

leidinggevend. Het voorwoord van H.J.A Hofland, de beste journalist van de 20e eeuw bleef in stand voor deze uitgave. Het omslag van De kunst van het oorlogvoeren is aangepast en bij de verschijning is ook het e-book gereed dat nog niet eerder is uitgegeven.

Deterrence "From Cold War to Long War" Austin Long 2008-10-27
Since its inception six decades ago, the RAND Corporation has been one of the key institutional homes for the study of deterrence. This book examines much of this research for lessons relevant to the current and future strategic environment. It is therefore part intellectual history and part policy recommendation, intended to encourage debate and discussion on how deterrence can best be incorporated into U.S. strategy.

Een kleine geschiedenis van de wereld Ernst Hans Gombrich 2012-05-08
In 1935 werd Ernst Gombrich, een toen 26-jarige doctor in de kunstgeschiedenis zonder uitzicht op een vaste aanstelling, door een kennis uit de uitgeverijwereld gevraagd of hij een wereldgeschiedenis voor een jeugdig publiek zou kunnen schrijven. Na niet meer dan zes

weken had Gombrich de opdracht voltooid, en *Eine kurze Weltgeschichte für junge Leser*, uitgegeven in Wenen, werd direct een succes in de Duitstalige landen. Mede doordat het boek tijdens de oorlogsjaren door de nazis werd verboden omdat het te pacifistisch zou zijn, duurde het tot de jaren zestig voor er een nieuwe druk verscheen. Tegen het einde van zijn lange leven bracht Gombrich herzieningen aan in de tekst en besloot hij tot een Engelse vertaling. Inmiddels is *Een kleine geschiedenis van de wereld* uitgegeven in meer dan 20 talen. Wat Gombrich voor ogen stond was op toegankelijke wijze het verhaal vertellen van de mensheid vanaf het stenen tijdperk tot de atoombom. Het resultaat is een persoonlijk en helder boek in 40 korte hoofdstukken over de oorlogen, kunstwerken en wetenschappelijke ontdekkingen die in de loop der eeuwen de ijkpunten van onze geschiedenis werden. Een fantastisch en tijdloos overzicht voor zowel jongere als oudere lezers. Ernst H. Gombrich (1909-2001), auteur van onder meer het internationale standaardwerk *Eeuwige schoonheid*, was waarschijnlijk de beroemdste kunsthistoricus van zijn tijd. Hij werd geboren in Wenen, verhuisde naar Londen in 1936, en werd op latere leeftijd directeur van het Warburg-instituut in Hamburg en professor in de geschiedenis van de klassieke traditie aan de universiteit van Londen. Een briljant boek... De humane en warme toon van *Een kleine geschiedenis van de wereld* laat precies zien waarom Gombrich door zo veel mensen in zijn leven werd bewonderd. Onweerstaanbaar. Philip Pullman, auteur van de noorderlicht-trilogie *Het waar gebeurde sprookje van hoe de mensheid zich ontwikkelde*. die zegt

The Monarch of Hell Jack Apostol 2003 The underlying reality and decisive influencing factor of mankind's ills on earth are attributed to The Monarch of Hell, the Devil. Hitler is a contingent representation and the subject of diabolic and hellish atrocities, reciprocally and hereditarily, correlated as to a vicious circle of tyrannical leaders and subsequent events dating back to by-gone eras and extending up to the present. He is one of many playful ploys of the Devil in belief of their own wildest dreams as to conquer the Devil himself and make themselves supreme rulers of eternity and all it encompasses, and to include the primacy of God. Within this preeminent, ethereal, spiritual, and related

terrestrial world there also exists the marked and projected rank of dignity, it being The Supremacy of God that remains in contention and eminently the basis of conflict with the Devil's schemes. Hitler's dream is to propel himself deep into the mysteries of profound space, the unknown, and beyond to capture its vital powers whereas he would become the supreme ruler of eternity and all that it encompasses and to include both that of God and the Devil. God's spirit exemplification are John and Valerie who have died in a previous life and are now key catalytic factors serving as a deterrent force in pursuit to impede Hitler. In this plane of intrigue, Prophet is the ultimate enigmatic figure of inspiration and guidance.

A Guide to the Battles of the American Revolution Theodore P. Savas 2006-08-19 A Guide to the Battles of the American Revolution is the first comprehensive account of every engagement of the Revolution, a war that began with a brief skirmish at Lexington Green on April 19, 1775, and concluded on the battlefield at the Siege of Yorktown in October 1781. In between were six long years of bitter fighting on land and at sea. The wide variety of combats blanketed the North American continent from Canada to the Southern colonies, from the winding coastal lowlands to the Appalachian Mountains, and from the North Atlantic to the Caribbean. Unlike existing accounts, A Guide to the Battles of the American Revolution presents each engagement in a unique way. Each battle entry offers a wide and rich but consistent template of information to make it easy for readers to find exactly what they are seeking. Every entry begins with introductory details including the date of the battle, its location, commanders, opposing forces, terrain, weather, and time of day. The detailed body of each entry offers both a Colonial and British perspective of the unfolding military situation, a detailed and unbiased account of what actually transpired, a discussion of numbers and losses, an assessment of the consequences of the battle, and suggestions for further reading. Many of the entries are supported and enriched by original maps and photos. Fresh, scholarly, informative, and entertaining, A Guide to the Battles of the American Revolution will be welcomed by historians and general

enthusiasts everywhere.

Scientist's Guide to Poster Presentations Peter J. Gosling 1999-06-30 Scientific information is increasingly being communicated at both national and international scientific conferences in the form of poster presentations. A recent international conference, for example, which involved nearly 500 delegates from over 50 different countries, included information presented in 331 posters. Recent experience has shown, however, that the presentational standard of such posters, even at the international level, varies immensely. Individuals presenting well-designed, eye-catching, and engaging posters are at a distinct advantage in promoting their scientific information. In doing so, they also promote themselves as credible scientists, as well as promoting the reputation of their establishments and countries of origin. However, producing a poster of high quality requires considerable planning and the acquisition of specific presentational skills. This book provides detailed practical guidance on all aspects of presenting scientific information in the form of posters. It is assumed that the presenter has access, either at home, at work, or through libraries, to a computer or word processor, a color printer, and photocopiers. The book is intended to help scientists to gain poster presentational skills in a manner that enables adoption of an individualistic style of presenting information in a credible fashion. The book has relevance internationally and is primarily targeted at research workers, including postgraduate students and all scientific professionals who are required to present visual communication of scientific information.

The Visionary Realism of German Economics Erik S. Reinert 2019-02-15

The Visionary Realism of German Economics forms a collection of Erik S. Reinert's essays bringing the more realistic German economic tradition into focus as an alternative to Anglo-Saxon neoclassical mainstream economics. Together the essays form a holistic theory explaining why economic development—by its very nature—is a very uneven process. Herein lie the important policy implications of the volume.
