The Scale-up Manual provides a unified approach to manage the creation and commercialisation of innovative products and services, enabled by four data-driven building blocks: the Triple Chasm Model, modified commercialisation readiness levels, meso-economic vectors and the commercialisation canvas. The approach supports different strategies for resource allocation, ranging from 'lean' techniques to sustainability initiatives based on the circular economy. Stand and Deliver Steve Lewis 2014-11-10 If Australian politics and public policy is a war of ideas, the National Press Club is the battleground. For the past half-century, the NPC has been the epicentre of political and social debate in Australia. Leaders and opinion-makers have used its stage to launch leadership bids, rattle the cage of public opinion with courageous and sometimes outrageous ideas, and make a stand. Stand & Deliver brings to life the NPC's rich and colourful history by presenting the best speeches of the past fifty years. It also lifts the lid on the protests and controversies experienced by this national institution. Featuring many of the giants of recent Australian and international history - including Bill Gates, the Dalai Lama, John Howard, Paul Keating, Julia Gillard, Barry Humphries, Germaine Greer and Bob Hawke - Stand & Deliver is an illuminating and entertaining journey through the last fifty years of public debate and discourse that have shaped our nation and the world.

Copyright Colin Golvan 2007 "This exposition of the Law and Practice of Copyright is aimed primarily at practitioners. ... The work is not intended to be exhaustive; rather it is a practical guide to enduring principles which have been adapted by the legislature to contemporary conditions. ... Sections in the text on jurisdictional problems arising from trans-national access to information, file swapping and various new methods of piracy, guide the reader through developments. ... The author both explains the law as it stands and supports the continuing but measured recalibration of the legislation ... As such, this is a most commendable contribution to the current understanding of copyright law in Australia."From the Foreword by the Hon Justice Susan CrennanLeading copyright lawyer Colin Golvan SC explains copyright with great clarity and sophistication. He balances a sharp focus on "practical" matters like preparing a copyright case for trial and the clauses of a publishing agreement (which can be used as precedents) with discussion of key trends such as copyright and the internet, the use of copyright to protect indigenous art and culture, and the corporatisation of copyright.
