

The Portable Hannah Arendt

Thank you utterly much for downloading **The Portable Hannah Arendt**. Maybe you have knowledge that, people have seen numerous times for their favorite books considering this The Portable Hannah Arendt, but end going on in harmful downloads.

Rather than enjoying a good PDF in the same way as a mug of coffee in the afternoon, otherwise they juggled with some harmful virus inside their computer. **The Portable Hannah Arendt** is handy in our digital library an online right of entry to it is set as public hence you can download it instantly. Our digital library saves in fused countries, allowing you to acquire the most less latency time to download any of our books gone this one. Merely said, the The Portable Hannah Arendt is universally compatible bearing in mind any devices to read.

Teaching in an Age of Ideology

John von Heyking
2013 Explores the role of some of the most prominent twentieth-century philosophers and political thinkers as teachers.

The Visitation of Hannah Arendt

Michal Ben-Naftali 2020-04-06
The Visitation of Hannah Arendt is an attempt to literally enact Arendt's notion of "natality".
Arendt, known to a large extent

through her engagement with the public sphere and with political discourse, is invited here to pay intimate visitations to four different figures: an anonymous student, the poetess Dahlia Ravikovich, the ghost of Stefan Zweig and Michal, Saul's daughter. The intellectual visitation, as a complex process of both mimesis and rejection, is revealed to be a natality, a rebirth in spirit. The book

*Downloaded from

presents an aesthetic-semiotic reading of Arendt by traversing the ensemble of her work. A special chapter is dedicated to Eichmann in Jerusalem.

The Portable Hannah Arendt

Hannah Arendt 2003-07-29 A collection of writings by a groundbreaking political thinker, including excerpts from *The Origins of Totalitarianism* and *Eichmann in Jerusalem* She was a Jew born in Germany in the early twentieth century, and she studied with the greatest German minds of her day—Martin Heidegger and Karl Jaspers among them. After the rise of the Nazis, she emigrated to America where she proceeded to write some of the most searching, hard-hitting reflections on the agonizing issues of the time: totalitarianism in both Nazi and Stalinist garb; Zionism and the legacy of the Holocaust; federally mandated school desegregation and civil rights in the United States; and the nature of evil. *The Portable Hannah Arendt* offers substantial excerpts from the three works that ensured her

international and enduring stature: *The Origins of Totalitarianism*, *The Human Condition*, and *Eichmann in Jerusalem*. Additionally, this volume includes several other provocative essays, as well as her correspondence with other influential figures.

Over geweld / druk 2 Hannah Arendt 2012-12 Filosofische beschouwing over de mechanismen van het gebruik van politiek en maatschappelijk geweld, door de Amerikaanse politicologe (1906-1975).

Het leven van de geest Hannah Arendt 2021 De drie delen van het hoofdwerk van Hannah Arendt nu eindelijk in één boek.

Hannah Arendt Samantha Rose Hill 2021-08-16 Hannah Arendt is one of the most renowned political thinkers of the twentieth century, and her work has never been more relevant than it is today. Born in Germany in 1906, Arendt published her first book at the age of twenty-three, before turning away from the world of academic philosophy to reckon with the rise of the Third Reich. After World War II, Arendt

*Downloaded from

became one of the most prominent—and controversial—public intellectuals of her time, publishing influential works such as *The Origins of Totalitarianism*, *The Human Condition*, and *Eichmann in Jerusalem*. Samantha Rose Hill weaves together new biographical detail, archival documents, poems, and correspondence to reveal a woman whose passion for the life of the mind was nourished by her love of the world.

Eichmann in Jeruzalem

Hannah Arendt 2016-01-18 In 1960 werd de voormalige nazileider Adolf Eichmann in Argentinië, waar hij sinds het einde van de Tweede Wereldoorlog een anoniem bestaan had geleid, gekidnapt en naar Israël gesmokkeld. Daar stond hij in 1961 terecht voor 'misdaden tegen de menselijkheid'. In opdracht van het tijdschrift *The New Yorker* woonde Hannah Arendt het Eichmannproces in Jeruzalem bij. Haar toonaangevende en omstreden reportage biedt inzicht in zowel het dagelijks

verloop van het proces als in de grote onderwerpen die erachter schuilgingen: het wezen van de gerechtigheid, de houding van het joodse leiderschap onder het naziregime, en het meest omstreden onderwerp van alle: het wezen van het kwaad.

Hannah Arendt and the Law

Marco Goldoni 2012-04-20 This book fills a major gap in the ever-increasing secondary literature on Hannah Arendt's political thought by providing a dedicated and coherent treatment of the many, various and interesting things which Arendt had to say about law. Often obscured by more pressing or more controversial aspects of her work, Arendt nonetheless had interesting insights into Greek and Roman concepts of law, human rights, constitutional design, legislation, sovereignty, international tribunals, judicial review and much more. This book retrieves these aspects of her legal philosophy for the attention of both Arendt scholars and lawyers alike. The book brings together lawyers as well as Arendt scholars drawn

from a range of disciplines (philosophy, political science, international relations), who have engaged in an internal debate the dynamism of which is captured in print. Following the editors' introduction, the book is split into four Parts: Part I explores the concept of law in Arendt's thought; Part II explores legal aspects of Arendt's constitutional thought: first locating Arendt in the wider tradition of republican constitutionalism, before turning attention to the role of courts and the role of parliament in her constitutional design. In Part III Arendt's thought on international law is explored from a variety of perspectives, covering international institutions and international criminal law, as well as the theoretical foundations of international law. Part IV debates the foundations, content and meaning of Arendt's famous and influential claim that the 'right to have rights' is the one true human right.

Fifty Key Jewish Thinkers Dan Cohn-Sherbok 2007-06-11 Fifty

Key Jewish Thinkers is a panoramic survey of over 2,000 years of Jewish thought, religious and secular, ancient and modern. Now in its second edition, this essential reference guide contains new introductions to the lives and works of such thinkers as: Hannah Arendt, Immanuel Levinas, Judith Plaskow, Sigmund Freud, and Walter Benjamin. Also including fully updated guides to further reading on figures from the middle ages through to the twenty-first century, historical maps and a chronology placing the thinkers in context, this is an essential and affordable one-volume reference to a rich and complex tradition.

The Anthem Companion to Hannah Arendt Peter Baehr 2017-01-02 The Anthem Companion to Hannah Arendt offers a unique collection of essays on one of the twentieth century's greatest thinkers. The companion encompasses Arendt's most salient arguments and major works – The Origins of Totalitarianism, The Human Condition, Eichmann in Jerusalem, On Revolution and The Life of the Mind. The volume also examines Arendt's intellectual relationships with Max Weber, Karl Mannheim and other key social scientists. Although written principally for students new to Arendt's work, The Anthem Companion to Hannah Arendt also engages the most avid Arendt scholar.

De crisis in de cultuur Hannah Arendt 1995 Bezinning van de Duits-Amerikaanse filosofe (1906-1975) op de betekenis van beschaving tegenover massacultuur en consumptisme.

Intimate Strangers Andreea Deciu Ritivoi 2014-09-09 Hannah Arendt, Herbert Marcuse, Alexander Solzhenitsyn, and Edward Said each steered major intellectual and political schools of thought shaping American political discourse after World War II. Yet none of them was American, and this was crucial to their thinking, which relied on ways of arguing and reasoning that stand both inside and outside of the American context. In an effort to convince their audiences they were American enough, these thinkers deployed deft rhetorical strategies that made their cosmopolitanism feel acceptable, inspiring radical new approaches to longstanding problems in American politics. Speaking like natives, they also exploited their foreignness to entice

Downloaded from

2022 by guest

listeners to embrace alternative modes of thought. Intimate Strangers unpacks this Óstranger ethos,Ó a blend of detachment and involvement that manifested in the persona of a prophet for Solzhenitsyn, an impartial observer for Arendt, a mentor for Marcuse, and a victim for Said. Despite its many successes, though, the stranger ethos did alienate audiences, and many critics continue to dismiss these thinkers not for their positions but because of their foreign point of view. This book concludes with an appeal to reject this kind of xenophobia, throwing support behind a political discourse that accounts for the ideals of both citizens and noncitizens.

Hannah Arendt, Totalitarianism, and the Social Sciences Peter Baehr 2010-03-11 This book examines the nature of totalitarianism as interpreted by some of the finest minds of the twentieth century. It focuses on Hannah Arendt's claim that totalitarianism was an entirely unprecedented regime and that the social

sciences had integrally misconstrued it. A sociologist who is a critical admirer of Arendt, Baehr looks sympathetically at Arendt's objections to social science and shows that her complaints were in many respects justified. Avoiding broad disciplinary endorsements or dismissals, Baehr reconstructs the theoretical and political stakes of Arendt's encounters with prominent social scientists such as David Riesman, Raymond Aron, and Jules Monnerot. In presenting the first systematic appraisal of Arendt's critique of the social sciences, Baehr examines what it means to see an event as unprecedented. Furthermore, he adapts Arendt and Aron's philosophies to shed light on modern Islamist terrorism and to ask whether it should be categorized alongside Stalinism and National Socialism as totalitarian.

Arendt's and Foucault's shared interest in reframing the self's relation to freedom and power George Berezkin 2016-02-15

Essay from the year 2015 in the

subject Philosophy - Philosophy of the Present, grade: 76, Queen Mary University of London (School of Politics and International Relations), course: International Relations, language: English, abstract: The statement argues that the both mentioned authors only share the intent of reconceptualising freedom and power in respect to the self, thereby insinuating that their actual understandings of these concept varies quite significantly. It also assumes the political and philosophical projects of either author represent a separate duality, thereby delinking the philosophical and political from each other and representing them as singular categories independent from each other. Arendt argues that this view represents one of the oldest western traditions of political thought: 'The gulf between philosophy and politics opened historically with the trial and condemnation of Socrates, which in the history of political thought plays the same role of a turning point that the trial of

Jesus play in the history of religion' (Arendt 1990: P.73) After the trial, Plato became disillusioned with the merits of politics for philosophers and heralded the age apolitia - arguing for the disengagement of philosophy from politics, which resulted in the separation of thought from action (Arendt 1990: P. 92). Arendt forcefully rejected such division of philosophy and politics, which Minnich (1989: P. 133) explains by Arendt's personal experience of the rise of Hitler and the 'inner emigration'(Arendt 1968: P. 19) of professional thinkers, who according to her by withholding judgement became implicit collaborators (Arendt 2000a; 2003; 2006). This idea represents her key thesis of the banality of evil. Similarly Foucault digresses from the viewpoint that philosophy and politics are independent entities and argues for a political philosophy that can answer 'how (..) the discourse of truth, or quite simply, philosophy as that discourse which par excellence is

concerned with truth, (is) able to fix limits to the rights of power?’(italics in original)(Foucault 1980: P.93) Thereby actively attempting constrain political power through philosophical reflection, similarly to Arendt. This essay will thereby first and foremost look at the philosophical projects of both authors and their political effects, because they form a political philosophy and seeing them as separate is not helpful. The two categories need to be instead seen as related, where the analysis of the former - philosophy has direct effects on our process and understanding of the latter - politics.

The Political Humanism of Hannah Arendt Michael H. McCarthy 2012-08-17 At the end of the Second World War when the horror of the holocaust became known, Hannah Arendt committed herself to a work of remembrance and reflection. Intellectual integrity demanded that we comprehend and articulate the genesis and meaning of totalitarian terror.

What earlier spiritual and moral collapse had made totalitarian regimes possible? What was the basis of their evident mass appeal? To what cultural resources and political institutions and traditions could we turn to prevent their recurrence? After years of profound study, Arendt concluded that the deepest crisis of the modern world was political and that the enduring appeal of political mass movements demonstrated how profound that crisis had become. For Arendt the modern political crisis is also a crisis of humanism. The radical totalitarian experiment was rooted in two distorted images of the human being. The agents of terror believed in the limitless power generated by strategic organization, a power exercised without restraint and justified by appeal to historical necessity. The victims of terror, by contrast, were systematically dehumanized by the ruling ideology, and then brutally deprived of their legal rights and their moral and existential dignity. Arendt's

*Downloaded from
talerka.tv on October 2,
2022 by guest*

political humanism directly challenges both of these distorted images, the first because it dangerously inflates human power, the second because it deliberately subverts human freedom and agency. This book offers a dialectical account of the political crisis that Arendt identified and shows why her interpretation of that crisis is especially relevant today. The author also provides detailed analysis and appraisal of Arendt's political humanism, the revisionary anthropology she based on the politically engaged republican citizen. Finally, the work distinguishes the merits from the limitations of Arendt's genealogical critique of "our tradition of political thought", showing that she tended to be right in what she affirmed and wrong in what she excluded or omitted.

Democracy and the Death of Shame Jill Locke 2016-04 Is shame dead? With personal information made so widely available, an eroding public/private distinction, and a therapeutic turn in public discourse, many seem to think

so. People across the political spectrum have criticized these developments and sought to resurrect shame in order to protect privacy and invigorate democratic politics. *Democracy and the Death of Shame* reads the fear that 'shame is dead' as an expression of anxiety about the social disturbance endemic to democratic politics. Far from an essential supplement to democracy, the recurring call to 'bring back shame' and other civilizing mores is a disciplinary reaction to the work of democratic citizens who extend the meaning of political equality into social realms. Rereadings from the ancient Cynics to the mid-twentieth century challenge the view that shame is dead and show how shame, as a politically charged idea, is disavowed, invoked, and negotiated in moments of democratic struggle.

Imagination in Politics

Mihaela Czobor-Lupp
2014-10-15 Imagination is a complex and ambiguous culture-making power that is a rather marginal concept in contemporary political theory.

*Downloaded from
talerka.tv on October 2,

This book addresses how imagination can be both a source of freedom and domination in liberal-democratic politics, and argues for a benign public employment of images and narratives in a global world of diverse cultures.

Human Rights Darren O'Byrne 2014-06-06 Human Rights: An Introduction is an important text that provides a comprehensive overview of human rights and related issues from a social science perspective. First, this book does more than discuss theory, it uses case studies and personal testimonies in the debate. Human rights as an area of academic interest cannot be easily divorced from human rights struggles and the reality of contemporary conditions. Second, the book is aimed at what is an emerging and growing cross-disciplinary field of study. Human rights issues are increasingly coming to the fore in a number of academic debates. Whereas the study of human rights has traditionally been included in departments of law,

international relations and philosophy, a number of courses are now being set up in departments of sociology and anthropology. Consequently, there is an increasing need to bring these disparate approaches together.

Hannah Arendt and the Uses of History Richard H.

King 2007-12-15 Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in 'The Origins of Totalitarianism'. This text uses Arendt's insights as a starting point for further investigations into the ways in which race, imperialism, slavery and genocide are linked.

Hannah Arendt and the Limits of Total Domination

Michal Aharony 2017-04-20 Responding to the increasingly influential role of Hannah Arendt's political philosophy in recent years, Hannah Arendt and the Limits of Total Domination: The Holocaust, Plurality, and Resistance, critically engages with Arendt's understanding of totalitarianism. According to

Arendt, the main goal of totalitarianism was total domination; namely, the virtual eradication of human legality, morality, individuality, and plurality. This attempt, in her view, was most fully realized in the concentration camps, which served as the major "laboratories" for the regime. While Arendt focused on the perpetrators' logic and drive, Michal Aharony examines the perspectives and experiences of the victims and their ability to resist such an experiment. The first book-length study to juxtapose Arendt's concept of total domination with actual testimonies of Holocaust survivors, this book calls for methodological pluralism and the integration of the voices and narratives of the actors in the construction of political concepts and theoretical systems. To achieve this, Aharony engages with both well-known and non-canonical intellectuals and writers who survived Auschwitz and Buchenwald concentration camps. Additionally, she analyzes the oral testimonies of

survivors who are largely unknown, drawing from interviews conducted in Israel and in the U.S., as well as from videotaped interviews from archives around the world. Revealing various manifestations of unarmed resistance in the camps, this study demonstrates the persistence of morality and free agency even under the most extreme and de-humanizing conditions, while cautiously suggesting that absolute domination is never as absolute as it claims or wishes to be. Scholars of political philosophy, political science, history, and Holocaust studies will find this an original and compelling book.

Oral and Written Narratives and Cultural Identity

Francisco Cota Fagundes 2007
This interdisciplinary volume centers on the interrelations of storytelling and various manifestations of cultural identity, from written to oral and from autobiographical to regional and national. Indigenous storytelling, as well as storytelling for and by

children and the elderly, are the main focus of these essays. Together, these fifteen texts make a significant contribution toward a deeper understanding of various aspects of textual and oral narrative: they broaden the lines of inquiry into multidisciplinary and multicultural interests, particularly those centering on the construction, expression, and contextualization of various types of identity; and they illustrate the deployment of storytelling not only as testimony, contestation, and subversion - but also as peacebuilding. Many countries, languages and cultures are herein represented - from the United States and Canada to Japan, Singapore, and Malaysia, from English to Japanese to Greek to Italian to the languages of indigenous peoples of Latin America and the Philippines.

De vrijheid om vrij te zijn

Hannah Arendt 2019-08-19

Hannah Arendt gaat in het essay 'De vrijheid om vrij te zijn' nader in op het begrip dat onze cultuur al meer dan

tweehonderd jaar hoog in het vaandel draagt: vrijheid. Ze vergelijkt de twee revoluties in de tweede helft van de achttiende eeuw die bepalend waren voor onze opvatting over vrijheid: de geslaagde Amerikaanse (1776) en de mislukte Franse (1789). De Franse Revolutie bleef steken in de bevrijding, de Amerikaanse daarentegen richtte een staatsvorm in waarin de publieke zaak de hoogste prioriteit was. Arendts essay is een voortdurende oproep om ook nu na te denken over vrijheid, en over de gevaren die de vrijheid bedreigen. 'De vrijheid om vrij te zijn' werd pas onlangs voor het eerst in Amerika en daarna in Duitsland werd gepubliceerd.

Crisis and Critique Rodrigo Cordero 2016-07-15 Fragility is a condition that inhabits the foundations of social life. It remains mostly unnoticed until something breaks and dislocates the sense of completion. In such moments of rupture, the social world reveals the stuff of which it is made and how it actually

*Downloaded from
talerka.tv on October 2,
2022 by guest*

works; it opens itself to question. Based on this claim, this book reconsiders the place of the notions of crisis and critique as fundamental means to grasp the fragile condition of the social and challenges the normalization and dissolution of these 'concepts' in contemporary social theory. It draws on fundamental insights from Hegel, Marx, and Adorno as to recover the importance of the critique of concepts for the critique of society, and engages in a series of studies on the work of Habermas, Koselleck, Arendt, and Foucault as to consider anew the relationship of crisis and critique as immanent to the political and economic forms of modernity. Moving from crisis to critique and from critique to crisis, the book shows that fragility is a price to be paid for accepting the relational constitution of the social world as a human domain without secure foundations, but also for wishing to break free from all attempts at giving closure to social life as an identity without question. This book will engage students of

sociology, political theory and social philosophy alike.

Educational Leadership and Hannah Arendt Helen M.

Gunter 2013-06-26 The relationship between education and democratic development has been a growing theme in debates focussed upon public education, but there has been little work that has directly related educational leadership to wider issues of freedom, politics and practice. Engaging with ELMA through the work of Hannah Arendt enables these issues of power to be directly confronted. Arendt produced texts that challenged notions of freedom and politics, and notably examined the lives of people, ideas and historical events in ways that are pertinent to the purposes and practices of education. This significant volume examines the main texts in the Arendt library and explains each of the key ideas and how they can enable critical thinking about knowledge production and practice in educational leadership. The analysis draws upon a range of exemplars and

*Downloaded from
talerka.tv on October 2,

Erfahrungsperspektive der Bürger zu der Beobachterperspektive politischer Theoretiker und rekonstruiert Gründungen als Problem des Verstehens; eine Gründung ist nicht mehr und nicht weniger als das Ergebnis der Bemühungen sie zu verstehen. Aufgrund der dem Verstehensprozess eigenen Dialektik kann die Darstellung der Gründung sich nicht in einer akkuraten Nacherzählung der geschichtlichen Ereignisse erschöpfen. Das vorliegende Buch untersucht, warum und wie das Verstehen einer politischen Gründung sich von dem geschichtlichen Ereignis ablöst, ohne den Bezug zu ihm aufgeben zu müssen.

Ethics and Literary Practice

Adam Zachary Newton
2021-09-09 This volume draws together a diverse array of scholars from across the humanities to formulate and address the question of “ethics and literary practice” for a new decade. In taking up a conjunction whose terms remain productively open to question, fifteen essays survey

a range of approaches and topics including genre and disciplinary rhetoric, emergence theory and literary signification, the ethics of alterity, of attention, and of aesthetics, the decolonial and the paracritical, neorealism and contingency, analogy and affect, scripture and national literature. From Seamus Heaney to Hannah Arendt, Teresa Brennan to Stanley Cavell, Ronit Matalon to Édouard Glissant, Uwe Timm to Katherena Vermette, Notes for Echo Lake to the Gospel of St. Matthew, these contributions demonstrate how broadly and fruitfully ramifying its organizing inquiry can be. Bringing such multifarious perspectives to the topic feels only more urgent as language, meaning, and expression enter the crucible of a “post-truth” era.

Natural Law

Alejandro Néstor García Martínez 2009-03-26
Modern moral and political philosophy is in debt with natural law theory, both in its ancient and mediaeval elaborations. While the very

*Downloaded from

notion of a natural law has proved highly controversial among 20th Century scholars, the last decades have witnessed a renewed interest in it. Indeed, the threats and challenges as result of multiculturalism, plural societies and global changes have generated a renewed attention to natural law theory. Clearly, it offers solid basis as possible framework to a better understanding of human goods without contradictions and partial bias. The purpose of the present volume is to provide an overview of the history of this concept (Cicero, St. Paul, Aquinas, Melanchthon, Montaigne, Descartes, Leibniz, Hume, Burke, Kant, MacIntyre, etc.) as well as a deep understanding of ongoing research, both in Europe and in America. Furthermore, the specificity of these studies will be of particular value to philosophers, law-philosophers, historians, anthropologists, sociologists and theologians, and those concerned on such issues as the relation between law and moral norm, law and

practical reason, and the presence of the idea of natural law in several prominent thinkers. It includes a selected bibliography on natural law. The book also provides an excellent introduction to several of the major topics in natural law theory making it useful both as a reference text and as a sourcebook for academics alike. "Natural law is a rich, complex, and highly disputed term. Since its first appearances in the history of Western civilization, it has been used both to point to God as the source of the moral order and to assert that there is an objective order of justice in nature that men and their laws ought to respect. In modern times, natural law theory gave birth to what we usually call "human rights." Unlike the meaning of the term, the importance of an ongoing debate on natural law and on the theories related to it is undisputable. This is why I welcome today this new collection of essays edited by Alejandro Néstor García Martínez, Mario Šilar and José

M. Torralba. *Natural Law: Historical, Systematic and Juridical Approaches* includes a wide variety of studies, covering key authors and issues in natural law theory. Younger students will appreciate the clarity of the chapters, and more trained readers the detailed and accurate bibliographical references that each of them offers. The editors's choice to go from a historical approach to contemporary theories, and then to theoretical and more practical issues is also commendable. Students in philosophy and in legal theory will greatly benefit from this book." —Fulvio Di Blasi, author of *God and the Natural Law: A Rereading of Thomas Aquinas*

The Experiential Ontology of Hannah Arendt Kimberly Maslin 2020-04-15 In *The Experiential Ontology of Hannah Arendt*, Kim Maslin examines Hannah Arendt's political philosophy through a Heideggerian framework. Maslin argues that not only did Arendt grow beyond the role of naïve and beguiled student, but

she became one of Heidegger's most astute critics. Well acquainted with and deeply respectful of his contributions to existential philosophy, Arendt viewed Heidegger's work as both profoundly insightful and extraordinarily myopic. Not contented to simply offer a critique of her mentor's work, Arendt engaged in a lifelong struggle to come to terms with the collective implications of fundamental ontology. Maslin argues that Arendt shifted to political philosophy less to escape her own disappointment at Heidegger's personal betrayal, but rather as an attempt to right the collective flaws of fundamental ontology. Her project offers a politically responsive, hence responsible, modification of Heidegger's fundamental ontology. She suggests that Heidegger's allegedly descriptive and non-normative insight into the nature of being is necessarily incomplete, and potentially irresponsible, unless it is undertaken in a manner which is mindful of the collective

implications. As such, Maslin shows how Arendt attempts to construct an experiential ontology that transforms Heidegger's fundamental ontology for use in the public sphere.

Verantwoordelijkheid en oordeel Hannah Arendt 2004
Bundeling van de overdenkingen van de Duitse filosoof (1906-1975) over het kwaad naar aanleiding van de reacties op haar verslag van het proces tegen Adolf Eichmann.

Geweld, genade en oordeel

Lucien van Liere 2006
Re-Imagining Public Space D. Boros 2014-12-09 Public space, both literally and figuratively, is foundationally important to political life. From Socratic lectures in the public forum, to Occupy Wall Street and the Arab Spring, public spaces have long played host to political discussion and protest. The book provides a direct assessment of the role that public space plays in political life.
