The Ring of Truth Wendy Doniger
2017-04-03 Why are sex and jewelry, particularly rings, so often connected? Why do rings continually appear in stories about marriage and adultery, love and betrayal, loss and recovery, identity and masquerade? What is the mythology that makes finger rings symbols of true (or, as the case may be, untrue) love? The cross-cultural distribution of the mythology of sexual rings is impressive--from ancient India and Greece through the Arab world to Shakespeare, Marie Antoinette, Wagner, nineteenth-century novels, Hollywood, and the De Beers advertising campaign that gave us the expression, "A Diamond is Forever." Each chapter of *The Ring of Truth*, like a charm on a charm bracelet, considers a different constellation

of stories: stories about rings lost and found in fish; forgetful husbands and clever wives; treacherous royal necklaces; fake jewelry and real women; modern women's revolt against the hegemony of jewelry; and the clash between common sense and conventional narratives about rings. Herein lie signet rings, betrothal rings, and magic rings of invisibility or memory. The stories are linked by a common set of meanings, such as love symbolized by the circular and unbroken shape of the ring: infinite, constant, eternal--a meaning that the stories often prove tragically false. While most of the rings in the stories originally belonged to men, or were given to women by men, Wendy Doniger shows that it is the women who are important in these stories, as they

are the ones who put the jewelry to work in the plots.

The Romance of Tristan Norris J. Lacy 2019-05-29 Published in 1989: A translation of Beroul's twelfth century Tristran from the Old French. Discussion of the author is included, but since nothing is known of him (or them) the biography is limited. His literary style and historical (or legendary) influence are well surveyed.

Blütezeit Mark Chinca 2012-05-21 Freunde, Schüler, Kollegen ehren mit dieser Festschrift einen Altgermanisten, der die Sprachkunst der mittelhochdeutschen Klassiker und die höfische Kultur ihrer Zeit auf einzigartige Weise mit Witz und Eleganz erschlossen hat. Die Summe seiner Arbeit hat er in der monumentalen Geschichte der

»Höfischen Literatur der Blütezeit« gezogen, die für lange Zeit die maßgebliche Darstellung der Gipfelepoche der deutschen Literatur des Mittelalters sein wird. Die Beiträge der Festschrift antworten auf dieses Werk, greifen Autoren, Texte, Themen auf, mit denen es sich befaßt. Im Mittelpunkt stehen die großen Dichtungen, die durch das ganze Mittelalter und weit darüber hinaus gewirkt haben und heute zum Kanon der Weltliteratur gehören: die Lyrik Walthers von der Vogelweide, das Nibelungenlied, die Romane Wolframs von Eschenbach und Gottfrieds von Straßburg. *Magic and Magicians in the Middle Ages and the Early Modern Time* Albrecht Classen 2017-10-23 There are no clear demarcation lines between magic, astrology, necromancy,

medicine, and even sciences in the pre-modern world. Under the umbrella term 'magic,' the contributors to this volume examine a wide range of texts, both literary and religious, both medical and philosophical, in which the topic is discussed from many different perspectives. The fundamental concerns address issue such as how people perceived magic, whether they accepted it and utilized it for their own purposes, and what impact magic might have had on the mental structures of that time. While some papers examine the specific appearance of magicians in literary texts, others analyze the practical application of magic in medical contexts. In addition, this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also

investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained. Magic is, oddly but significantly, still around us and exerts its influence. Focusing on magic in the medieval world thus helps us to shed light on human culture at large.

Person und Artefakt Linus Möllenbrink
2020-11-09 Trotz ihrer unbestrittenen Bedeutung bildeten literarische Figuren lange eine Leerstelle der mediävistischen Erzählforschung. Am Beispiel des "Tristan" Gottfrieds von Straßburg unternimmt es die vorliegende Untersuchung, Antworten auf bislang ungeklärte Fragen in diesem Bereich zu finden. Dafür werden zunächst zentrale narratologische Kategorien – die Handlungsmotivation, die Frage des

Rezipientenwissens, das Verhältnis von Typik und Individualität – diskutiert, um anschließend in exemplarischen Analysen des Romans hermeneutisch fruchtbar gemacht zu werden. Die Lektüren arbeiten heraus, wie sich die vermeintliche Lebenswirklichkeit der Figuren zu ihrer artifiziellen Inszenierung verhält, und bieten damit neben einem Beitrag zur Historischen Narratologie zugleich neue Interpretationsansätze für Gottfrieds Text.

Tracing the Trails in the Medieval

World Albrecht Classen 2020-10-12
Every human being knows that we are walking through life following trails, whether we are aware of them or not. Medieval poets, from the anonymous composer of Beowulf to Marie de France, Hartmann von Aue, Gottfried von Strassburg, and Guillaume de Lorris to Petrarch and Heinrich Kaufringer, predicated their works on the notion of the trail and elaborated on its epistemological function. We can grasp here an essential concept that determines much of medieval and early modern European literature and philosophy, addressing the direction which all protagonists pursue, as powerfully illustrated also by the anonymous poets of Herzog Ernst and Sir Gawain and the Green Knight. Dante's Divina Commedia, in fact, proves to be one

of the most explicit poetic manifestations of the fundamental idea of the trail, but we find strong parallels also in powerful contemporary works such as Guillaume de Deguileville's Pèlerinage de la vie humaine and in many mystical tracts.

A Companion to Gottfried Von Strassburg's "Tristan" Will Hasty
2003 The legend of Tristan and Isolde -- the archetypal narrative about the turbulent effects of all-consuming, passionate love -- achieved its most complete and profound rendering in the German poet Gottfried von Strassburg's verse romance Tristan (ca. 1200-1210). Along with his great

literary rival Wolfram von Eschenbach and his versatile predecessor Hartmann von Aue, Gottfried is considered one of three greatest poets produced by medieval Germany, and over the centuries his Tristan has lost none of its ability to attract with the beauty of its poetry and to challenge -- if not provoke -- with its sympathetic depiction of adulterous love. The essays, written by a dozen leading Gottfried specialists in Europe and North America, provide definitive treatments of significant aspects of this most important and challenging high medieval version of the Tristan legend. They examine aspects of Gottfried's unparalleled narrative artistry; the important connections between Gottfried's Tristan and the socio-cultural situation in which it

was composed; and the reception of Gottfried's challenging romance both by later poets in the Middle Ages and by nineteenth- and twentieth-century authors, composers, and artists -- particularly Richard Wagner. The volume also contains new interpretations of significant figures, episodes, and elements (Riwalin and Blanscheflur, Isolde of the White Hands, the Love Potion, the performance of love, the female figures) in Gottfried's revolutionary romance, which provocatively elevates a sexual, human love to a summum bonum. Will Hasty is Professor of German at the University of Florida. He is the editor of Companion to Wolfram's "Parzival," (Camden House, 1999).

Tristan with the 'Tristran' of Thomas
Gottfried von Strassburg 2004-07-01

One of the great romances of the Middle Ages, *Tristan*, written in the early thirteenth century, is based on a medieval love story of grand passion and deceit. By slaying a dragon, the young prince Tristan wins the beautiful Isolde's hand in marriage for his uncle, King Mark. On their journey back to Mark's court, however, the pair mistakenly drink a love-potion intended for the king and his young bride, and are instantly possessed with an all-consuming love for each another - a love they are compelled to conceal by a series of subterfuges that culminates in tragedy. Von Strassburg's work is acknowledged as the greatest rendering of this legend of medieval lovers, and went on to influence generations of writers and artists and inspire Richard Wagner's *Tristan*

and *Isolde*.

The conflict of love and honor Joan M. Ferrante 1973-01-01

Tristan and Isolde Gottfried von Strassburg 2020-09-16 "I believe this fluent, accurate, readable translation of *Tristan and Isolde* will become the standard English edition of Gottfried's literary masterpiece. Wisely choosing not to recreate the end rhyme of the original, Whobrey has created a text that stays true to the original Middle High German while rendering it into modern English prose. The inclusion of Ulrich von Türheim's

Continuation is a great strength of this book. For the first time, English speakers will be able to read Gottfried's work in tandem with Ulrich's and explore—via Whobrey's discussion of Ulrich's sources—the rich Tristan literary tradition in the Middle Ages and the ways in which Gottfried's achievement resonated well after his death. The footnotes provide helpful cultural, historical, and interpretive information, and Whobrey's Introduction offers a nice overview of Gottfried's biography, a discussion of Gottfried's important literary excursus, his place within the literature and genres of his time, and the source material for his Tristan. Particularly useful is Whobrey's discussion of the intricate and masterful structure of Gottfried's text." —Scott

Gottfried Von Strassburg and the Medieval Tristan Legend Adrian Stevens 1990 This volume comprises selected papers from a Tristan symposium held at the Institute of Germanic Studies in London. The symposium was conceived by the organizers as an experiment in transatlantic dialogue and the papers represent the views of scholars from a variety of North American and

British universities. The main focus of attention is Gottfried's Tristan. Familiar assumptions about the text are questioned and fresh perspectives are offered on many contentious issues: those disagreements which persist are themselves a reflection posed by Gottfried's masterpiece. In addition, new light is thrown on the treatment of the Tristan theme in medieval and modern

times. Contributors are: MICHAEL CURSCHMANN, W.J. MCCANN, MARGARET BROWN, C. STEPHEN JAEGER, M.H. **The Spirit of Medieval English
Popular Romance** Ad Putter 2014-06-06

The Middle English popular romances enjoyed a wide appeal in later medieval Britain, and even today students of medieval literature will encounter examples of the genre, such as Sir Orfeo, Sir Tristrem, and Sir Launfal. This collection of twelve specially commissioned essays is designed to meet the need for a stimulating guide to the genre. Each essay introduces one popular romance, setting it in its literary and historical contexts, and develops an original interpretation that reveals the possibilities that popular romances offer for modern literary criticism. A substantial introduction by the editors discusses the production and transmission of popular romances in the Middle Ages, and considers the modern reception of popular romance and the

interpretative challenges offered by new theoretical approaches. Accessible to advanced students of English, this book is also of interest to those working in the field of medieval studies, comparative literature, and popular culture.

The Arthur of the North 2011-03-01

The Arthur of the North is the first book-length study of the Arthurian literature that was translated from French and Latin into Old Norse-Icelandic in the thirteenth century, which has been preserved mostly in Icelandic manuscripts, and which in early modern times inspired the composition of narrative poems and chapbooks in Denmark, Iceland, and Norway, chiefly of the Tristan legend. The importation of Arthurian literature in the North, primarily French romances and *lais*, is indebted largely to the efforts of King Hákon Hákonarson (r. 1217–63) of Norway, who commissioned the translation of Thomas de Bretagne's *Tristan* in 1226 and subsequently several Arthurian romances by Chrétien de Troyes and a

number of Breton lais. The translations are unique in that the French metrical narratives were rendered in prose, the traditional form of narrative in the North. Only one work was translated into verse in Norway, namely Chrétien de Troyes's Yvain, which was commissioned by Queen Eufemia (d. 1312), the German wife of the Norwegian king Hákon Magnússon (r. 1299–1319), and which is the only Arthurian romance in Old Swedish. The earliest Arthurian texts to have been translated antedate King Hákon's program of translation, however. The Prophetiae Merlini in Geoffrey of Monmouth's *Historia regum Britanniae* were rendered by the Icelandic monk Gunnlaugr Leifsson in *Merlínússpá*, around the year 1200. Presumably at the same time, or a little later, Geoffrey's *Historia* was

also translated in Iceland and entitled *Breta sögur*. The book concludes with a chapter on Arthurian literature in the Rus' area, precisely East Slavic, with a focus on the Belarusian *Trysčan*.

Chrétien de Troyes Karl D. Uitti 1995
Born out of exhaustive research and study, this volume covers the five major romances in octosyllabic rhyming couplets that may with certainty be ascribed to the 12th-

century French writer Chretien de Troyes, and touches on a few minor works that have been attributed to him. Karl Uitti locates Chretien within the theological and philosophical setting of his time; views him as a worker-craftsman who produced stories on demand for his patron; and argues persuasively that he advanced the French language to new heights in his work.

Medieval Narrative Tony Davenport 2004-09-23 An introduction to the variety of medieval narrative, intended both for students and more general readers who already know some of the classics of the Middle Ages, such as Beowulf, the Decameron and The Canterbury Tales,, and who wish to venture further. Medieval definitions and theories of narrative are considered in relation to modern

narratology and the major medieval types of narrative are discussed. The perspective in this book is mainly English, with Chaucer as a central figure, but it refers to a range of well-known European texts and writers, such as Marie de France, Cretien de Troyes, the Niebelungenlied, the Poem of the Cid, Dante and Boccaccio.

Tristan Mark Chinca 1997-04-10 This book offers a concise introduction to

Gottfried von Strassburg's *Tristan*. The work is approached both through its context and through a close reading of key passages of the text. The contextual reading compares Gottfried with his predecessors Beroul, Eilhart and Thomas in order to reveal his independent response to the problems and possibilities with which he was confronted by his material. The close textual reading builds up a distinctive interpretation of the work, in which particular attention is paid to Gottfried's reworking of literary

tradition, his use of religious analogies and his awareness of the fictive potential of literary language. A concluding chapter examines Gottfried's medieval reception through the work of his continuators, Ulrich von Turheim and Heinrich von Freiberg and the *Herzmaere* of Konrad von Wurzburg. *Tristan* Arthur Thomas Hatto 1960
