*Meinongian Issues in Contemporary Italian Philosophy* Venanzio Raspa 2013-05-02  
The traditional and lively interest in Meinong's philosophy and related topics among Italian philosophers gives rise to this volume of MEINONG STUDIES. As more than an introduction, Venanzio Raspa presents an enlightening historical presentation of Meinong's reception in Italy from his lifetime to the present day. Riccardo Martinelli offers a reconstruction of the Meinongian theory of musical objects of higher order. Francesca Modenato gives the outlines of Meinong's object theory as a theory of the pure object, separating it from ontology

and associating it rather with gnoseology. From a less historical than systematic-analytic perspective, Andrea Bottani deals with incomplete objects, Mario Alai investigates the problem of propositions concerning non-existent objects, and Carola Barbero proposes a realistic theory of the emotions aroused by reading literary texts. As themes related to Meinongian ones, Alberto Voltolini discusses the concept of existence as a property, Francesco Orilia validates an intuition of Meinong by adopting an approach called 'fact infinitism', and Guido Bonino deals with Gustav Bergmann's interpretation of Meinong's ontology. Das traditionelle und lebhafteste Interesse italienischer Philosophen an Meinongs Philosophie und damit zusammenhängenden Themen gibt Anlaß

für diesen Band der MEINONG STUDIEN. Weit über die Anforderungen an eine Einleitung hinausgehend, präsentiert Venanzio Raspa eine erhellende Studie der Rezeption Meinongs in Italien von seinen Lebzeiten bis zum heutigen Tag. Riccardo Martinelli rekonstruiert Meinongs Theorie musikalischer Objekte höherer Ordnung und Francesca Modenato umreißt Meinongs Objekttheorie (als Theorie reiner Objekte), welche sie eher der Gnoseologie denn der Ontologie zuordnet. Aus einer weniger historischen als systematisch-analytischen Perspektive befassen sich Andrea Bottani mit unvollständigen Objekten, Mario Alai mit der Frage nicht-existierender Objekte betreffender Aussagen, und Carola Barbero präsentiert eine realistische Theorie von Emotionen,

die durch die Lektüre literarischer Texte erweckt werden. Als Meinungsbezogene Themen diskutiert Alberto Voltolini den Begriff der Existenz als Eigenschaft, Francesco Orilia bestätigt in seinem 'Fakteninfinitismus' genannten Zugang eine Meinungsche Intuition, und Guido Bonino befaßt sich mit Gustav Bergmanns Interpretation der Meinungschen Ontologie.

*Ecosystem Services and Green*

*Infrastructure* Andrea Arcidiacono 2020-10-19 The book analyses the relationship between ecosystem services, green and blue infrastructures (GBI) and spatial planning in Italy. It provides insights on the opportunities and challenges in the adoption of an ecosystem services (ES)-based approach for Spatial Planning exploring methods and techniques for the design of GBI strategies. Nowadays, there is an advance in ES knowledge and a recognition of the benefits of GBI for the quality of human life and biodiversity conservation. The main challenge remains how this knowledge could be integrated into the planning process and how it could guide the decision-making process towards sustainable development for contemporary cities.

The book collects innovative Italian experiences providing important considerations for operationalizing the ES concept and highlighting different disciplinary attitudes and methodological approaches with the common goal to enhance human well-being.

*Production, Trade, and Connectivity in Pre-Roman Italy* Jeremy Armstrong  
2022-04-26 This book explores the complex relationship between production, trade, and connectivity in Pre-Roman Italy, confronting established ideas about the relationships between people, objects, and ideas, and highlighting how social change and community formation is rooted in individual interactions. The volume engages with, and builds upon, recent paradigm shifts in the archaeology and history of the ancient Mediterranean which have centred the social and economic processes that

produce communities. It utilises a series of case studies, encompassing the production, trade, and movement of objects and people, to explore new models for how production is organized and the recursive relationship between the cultural and the economic spheres of human society. The contributions address issues of agency and production at multiple scales of analysis, from larger theoretical discussions of trade and identity across different regions, to context-specific explorations of production techniques and the distribution of material culture across the Italian peninsula. Production, Trade, and Connectivity in Pre-Roman Italy is intended for students and scholars interested in the archaeology and history of Pre-Roman and Early Republican Italy, but

especially production, trade, community formation, and identity. Those interested in issues of cultural interaction and material change in the ancient Mediterranean world will find useful comparative examples and methodological approaches throughout.

*Spain in Italy* Thomas James Dandeleit 2007 This volume integrates the theme of Spain in Italy into a broad synthesis of late Renaissance and early modern Italy by restoring the contingency of events, local and imperial decision-making, and the distinct voices of individual Spaniards and Italians.

*An Italian Summer* Claude Nori 2001 With its evocative images, this book immerses us in a world of dolce vita, youthful enthusiasm, the joy and beauty of Italian holidays -- an atmosphere filled with young girls' laughter, stifling heat, the sounds

of crashing surf and the playful cat-and-mouse games of the sexes. And he also tells us a story -- a tale of people of all generations who leave home each year to return to a familiar place that is close to their hearts, where they pursue the very same holiday rituals year in and year out: Miss Rimini for one short summer season, a passionate kiss on the beach, nightly parties in the bars and restaurants, the joyful exuberance of youthful cliques seeking to experience everything life offers nowhere else in just a few short weeks and to forget what everyday life is. With his concentrated, atmospheric images, which bear the imprint of a fascinated, passionate observer, Claude Nori succeeds masterfully in capturing that mixture of

Mediterranean lifestyle and carefree holiday spirit that awakens memories and longings in us all.

*Religion as Empowerment* Kyriaki Topidi 2016-06-10 This volume shows how and why legal empowerment is important for those exercising their religious rights under various jurisdictions, in conditions of legal pluralism. At the same time, it also

questions the thesis that as societies become more modern, they also become less religious. The authors look beyond the rule of law orthodoxy in their consideration of the freedom of religion as a human right and place this discussion in a more plurality-sensitive context. The book sheds more light on the informal and/or customary mechanisms that explain the limited impact of law on individuals and groups, especially in non-Western societies. The focus is on discussing how religion and the exercise of religious rights may or may not empower individuals and social groups and improve access to human rights in general. This book is important reading for academics and practitioners of law and religion, religious rights, religious diversity and cultural difference, as well as

NGOs, policy makers, lawyers and advocates at multicultural jurisdictions. It offers a contemporary take on comparative legal studies, with a distinct focus on religion as an identity marker.

**The Morphosyntax of Portuguese and Spanish in Latin America** Mary A. Kato  
2016-10-26 Recent trends in syntax and morphology have shown the great importance of doing research on variation in closely related languages. This book centers on the study of the morphology and syntax of the two major Romance Languages spoken in Latin America from this perspective. The works presented here either compare Brazilian Portuguese with European Portuguese or compare Latin American Spanish and Peninsular Spanish, or simply compare Portuguese and its varieties with Spanish and

its varieties. The chapters advance on a great variety of theoretical questions related to coordination, clitics , hyper-raising, infinitives, null objects, null subjects, hyper-raising, passives, quantifiers, pseudo-clefts, questions and distributed morphology. Finally, this book provides new empirical findings and enriches the descriptions made about Portuguese and Spanish Spoken in the Americas by providing new

generalizations, new data and new statistical evidence that help better understand the nature of such variation. The studies contained in this book show a vast array of new phenomena in these young varieties, offering empirical and theoretical windows to language variation and change.
