rocks.

Rethinking the French City

Monique Yaari 2008-01 This
book considers the post-68
French city as a prism through
which to understand the
contemporary world and
France's specificity within it. The
reader is invited to join in a
series of exploratory strolls

through texts, buildings, and neighborhoods, and thereby share in a process of discovery. Zeroing in on international architectural debates, a range of key Parisian exhibitions, and major urban design decisions in Paris, Montpellier, and Lille, Yaari unravels an often-acerbic French critique of both modern and postmodern positions on culture, technology, and the city. This critique—stemming from the competing claims of national identity, the ethics of architecture and display, and an anthropologically informed revision of prevailing views on the city—has sparked in France a passionate search for a third path, which the author proposes

to term après-moderne. Breaking new ground in the field of French Studies through cultural analysis of the contemporary city, this study brings new insight to scholars and professionals in architecture and urbanism, and will interest all others for whom France and cities in general hold special appeal.

An English - French Military Dictionary Bill St. Amour

2012-07-24 This book is the "greatest hits" compilation of more than 100 French books, journals, papers and articles. It contains more than 15000 key French economic, legal, medical, military, political, scientific, sociological terms and

colloquial phrases. It also contains important abbreviations. One look will convince you, the student or interpreter, of the value of this work!

Ru Kim Thúy 2012-01-17 A
runaway bestseller in Quebec,
with foreign rights sold to 15
countries around the world, Kim
Thúy's Governor General's
Literary Award-winning Ru is a
lullaby for Vietnam and a love
letter to a new homeland. Ru. In
Vietnamese it means lullaby; in
French it is a small stream, but
also signifies a flow - of tears,
blood, money. Kim Thúy's Ru is
literature at its most crystalline:
the flow of a life on the tides of
unrest and on to more peaceful
waters. In vignettes of exquisite
clarity, sharp observation and
sly wit, we are carried along on
an unforgettable journey from a

palatial residence in Saigon to a
crowded and muddy Malaysian
refugee camp, and onward to a
new life in Quebec. There, the
young girl feels the embrace of
a new community, and revels in
the chance to be part of the
American Dream. As an adult,
the waters become rough again:
now a mother of two sons, she
must learn to shape her love
around the younger boy's
autism. Moving seamlessly from
past to present, from history to
memory and back again, Ru is
a book that celebrates life in all
its wonder: its moments of
beauty and sensuality, brutality
and sorrow, comfort and
comedy.

Terminology in Everyday Life
Marcel Thelen 2010
"Terminology in Everyday Life"
contains a selection of fresh
and interesting articles by
prominent scholars and
practitioners in the field of
terminology based on papers
presented at an international
terminology congress on the

impact of terminology on
everyday life. The volume
brings together theory and
practice of terminology and
deals with such issues as the
growing influence of European
English on terminology,
terminology on demand, setting
up a national terminological
infrastructure, the relevance of
frames and contextual
information for terminology, and
standardisation through
automated term extraction and
editing tools. The book wants to
demonstrate that terminology is
of everyday importance and is
of interest to everyone
interested in the theory and
practice of terminology, from
terminologists to computer

specialists to lecturers and students.

Medical Ethics in the Ancient World Paul J. Carrick

2001-04-30 In this book Paul Carrick charts the ancient Greek and Roman foundations of Western medical ethics.

Surveying 1500 years of pre-Christian medical moral history,

Carrick applies insights from ancient medical ethics to developments in contemporary

medicine such as advance directives, gene therapy,

physician-assisted suicide, abortion, and surrogate

motherhood. He discusses such

timeless issues as the social status of the physician; attitudes

toward dying and death; and the relationship of medicine to philosophy, religion, and

popular morality. Opinions of a wide range of ancient thinkers

are consulted, including physicians, poets, philosophers,

and patients. He also explores the puzzling question of

Hippocrates' identity, analyzing not only the Hippocratic Oath

but also the Father of Medicine's lesser-known works.

Complete with chapter discussion questions,

illustrations, a map, and appendices of ethical codes,

Medical Ethics in the Ancient World will be useful in courses

on the medical humanities, ancient philosophy, bioethics, comparative cultures, and the history of medicine. Accessible to both professionals and to those with little background in medical philosophy or ancient science, Carrick's book demonstrates that in the ancient world, as in our own postmodern age, physicians, philosophers, and patients embraced a diverse array of perspectives on the most fundamental questions of life and death.

[The Wandering Uterus](#) Cheryl L. Meyer 1997-02-01 From the FDA review of RU-486 to the

recent growth of fertility clinics to the rights of lesbian parents, women's reproductive lives are aggressively regulated by law and medicine. While a great deal has been written on such issues as abortion and postpartum depression, no single volume has offered a broad discussion of the interface between the legal, medical, and political aspects of women's reproduction in a manner accessible and informative to non-specialists. The Wandering Uterus fills that gap. Taking her title from an ancient Greek belief that women's health problems were caused by a wandering uterus that needed

to be confined and controlled, Meyer exposes the way in which myths and prejudice about female sexuality continue to influence the practice of law and medicine today. This book offers new insights and provides a wealth of up-to-date information on a subject that changes every day. The text is divided into three main parts: political issues of pre-conception, the politics of pregnancy, and the politics of motherhood. Throughout, Meyer argues passionately that while technology and medicine must progress, they should not be allowed to do so at women's expense.

The Politics of Abortion in the United States and Canada

Raymond Tatalovich 1997
Tatalovich (political science,
Loyala U.) continues his studies
on moral conflicts in public
policy by examining the
differences and similarities by
which Canadian and US
governments, political parties,
and activists have addressed
the issue of abortion. He

discusses the history of the
conflict since the 1950s, judicial
activism and legislative
responses, public opinion, party
politics and elections, and
federalism and the
implementation problem. Having
proposed models of a politicized
America and depoliticized
Canada, he concludes by
comparing social convergence
and institutional divergence.

*Cultural Strategies of Agenda
Denial* Roger W. Cobb 1997

This is the first book devoted to
examining why some issues
proposed by aggrieved
individuals or groups are denied

access to policy agendas. The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial--strategies usually motivated by perceived threats to widely held world views and identities.

Contemporary Fiction in French

Anna-Louise Milne 2021-03-25

Our global literary field is fluid and exists in a state of constant evolution. Contemporary fiction in French has become a polycentric and transnational field of vibrant and varied experimentation; the collapse of the distinction between 'French' and 'Francophone' literature has opened up French writing to a world of new influences and interactions. In this collection, renowned scholars provide

thoughtful close readings of a whole range of genres, from graphic novels to crime fiction to the influence of television and film, to analyse modern French fiction in its historical and sociological context.

Allowing students of contemporary French literature and culture to situate specific works within broader trends, the volume provides an engaging, global and timely overview of

contemporary fiction writing in French, and demonstrates how our modern literary world is more complex and diverse than ever before.
