Rethinking the French City

Monique Yaari 2008-01

This book considers the post-68 French city as a prism through which to understand the contemporary world and France's specificity within it. The reader is invited to join in a series of exploratory strolls through texts, buildings, and neighborhoods, and thereby share in a process of discovery. Zeroing in on international architectural debates, a range of key Parisian exhibitions, and major urban design decisions in Paris, Montpellier, and Lille, Yaari unravels an often-acerbic

French critique of both modern and postmodern positions on culture, technology, and the city. This critique—stemming from the competing claims of national identity, the ethics of architecture and display, and an anthropologically informed revision of prevailing views on the city—has sparked in France a passionate search for a third path, which the author proposes to term *après-moderne*. Breaking new ground in the field of French Studies through cultural analysis of the contemporary city, this study brings new insight to scholars and professionals in architecture and urbanism, and will interest all others for whom France and cities in general hold special appeal.

Terminology in Everyday Life

Marcel Thelen 2010

"Terminology in Everyday Life"
contains a selection of fresh
and interesting articles by
prominent scholars and
practitioners in the field of
terminology based on papers

presented at an international
terminology congress on the
impact of terminology on
everyday life. The volume
brings together theory and
practice of terminology and
deals with such issues as the
growing influence of European
English on terminology,
terminology on demand,
setting up a national
terminological infrastructure,
the relevance of frames and
contextual information for
terminology, and
standardisation through
automated term extraction and
editing tools. The book wants
to demonstrate that
terminology is of everyday
importance and is of interest to
everyone interested in the
theory and practice of
terminology, from
terminologists to computer
specialists to lecturers and
students.

individuals or groups are denied access to policy agendas. The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial--strategies usually motivated by perceived threats to widely held world views and identities.

Ru Kim Thúy 2012-01-17 A runaway bestseller in Quebec, with foreign rights sold to 15 countries around the world, Kim Thúy's Governor General's Literary Award-winning *Ru* is a lullaby for Vietnam and a love letter to a new homeland. *Ru*. In Vietnamese it means lullaby; in French it is a small stream, but also signifies a flow - of tears, blood, money. Kim Thúy's *Ru* is literature at its most crystalline: the flow of a life on the tides of unrest and on to more peaceful waters. In vignettes of exquisite clarity, sharp observation and sly wit, we are carried along on an unforgettable journey from a palatial residence in Saigon to a crowded and muddy Malaysian refugee camp, and

onward to a new life in Quebec. There, the young girl feels the embrace of a new community, and revels in the chance to be part of the American Dream. As an adult, the waters become rough again: now a mother of two sons, she must learn to shape her love around the younger boy's autism. Moving seamlessly from past to present, from history to memory and back again, *Ru* is a book that celebrates life in all its wonder: its moments of beauty and sensuality, brutality and sorrow, comfort and comedy.

The Wandering Uterus

Cheryl L. Meyer 1997-02-01

From the FDA review of RU-486 to the recent growth of fertility clinics to the rights of lesbian parents, women's reproductive lives are aggressively regulated by law and medicine. While a great deal has been written on such issues as abortion and postpartum depression, no single volume has offered a broad discussion of the interface between the legal, medical, and political aspects of women's reproduction in a

manner accessible and

informative to non-

specialists. The Wandering

Uterus fills that gap. Taking

her title from an ancient Greek

belief that women's health

problems were caused by a

wandering uterus that needed

to be confined and controlled,

Meyer exposes the way in

which myths and prejudice

about female sexuality continue

to influence the practice of law

and medicine today. This book

offers new insights and

provides a wealth of up-to-date

information on a subject that

changes every day. The text is

divided into three main parts:

political issues of pre-

conception, the politics of

pregnancy, and the politics of

motherhood. Throughout,

Meyer argues passionately that

while technology and medicine

must progress, they should not

be allowed to do so at women's

expense.

SPIN 1991-07 From the

concert stage to the dressing

room, from the recording

studio to the digital realm,

SPIN surveys the modern

musical landscape and the

culture around it with authoritative reporting, provocative interviews, and a discerning critical ear. With dynamic photography, bold graphic design, and informed irreverence, the pages of SPIN pulsate with the energy of today's most innovative sounds. Whether covering what's new or what's next, SPIN is your monthly VIP pass to all that rocks.

Medical Ethics in the

Ancient World Paul J. Carrick

2001-04-30 In this book Paul Carrick charts the ancient Greek and Roman foundations of Western medical ethics. Surveying 1500 years of pre-Christian medical moral history, Carrick applies insights from ancient medical ethics to developments in contemporary medicine such as advance directives, gene therapy, physician-assisted suicide, abortion, and surrogate motherhood. He discusses such timeless issues

as the social status of the physician; attitudes toward dying and death; and the relationship of medicine to philosophy, religion, and popular morality. Opinions of a wide range of ancient thinkers are consulted, including physicians, poets, philosophers, and patients. He also explores the puzzling question of Hippocrates' identity, analyzing not only the Hippocratic Oath but also the Father of Medicine's lesser-known works. Complete with chapter discussion questions, illustrations, a map, and appendices of ethical codes, *Medical Ethics in the Ancient World* will be useful in courses on the medical humanities, ancient philosophy, bioethics, comparative cultures, and the history of medicine. Accessible to both professionals and to those with little background in medical philosophy or ancient science, Carrick's book demonstrates that in the ancient world, as in our own postmodern age, physicians, philosophers, and patients embraced a diverse array of

perspectives on the most fundamental questions of life and death.

The Politics of Abortion in the United States and

Canada Raymond Tatalovich 1997 Tatalovich (political science, Loyola U.) continues his studies on moral conflicts in public policy by examining the differences and similarities by which Canadian and US governments, political parties, and activists have addressed the issue of abortion. He discusses the history of the conflict since the 1950s, judicial activism and legislative responses, public opinion, party politics and elections, and federalism and the implementation problem.

Having proposed models of a politicized America and depoliticized Canada, he concludes by comparing social convergence and institutional divergence. Paper edition (418-7) \$21.95. Annotation copyrighted by Book News, Inc., Portland, OR

Contemporary Fiction in

French Anna-Louise Milne

2021-03-25 Our global literary field is fluid and exists in a state of constant evolution.

Contemporary fiction in French has become a polycentric and transnational field of vibrant and varied experimentation; the collapse of the distinction between 'French' and 'Francophone' literature has opened up French writing to a world of new influences and interactions. In this collection, renowned scholars provide thoughtful close readings of a whole range of genres, from graphic novels to crime fiction to the influence of television and film, to analyse modern French fiction in its historical and sociological context.

Allowing students of contemporary French literature and culture to situate specific works within broader trends, the volume provides an engaging, global and timely overview of contemporary fiction writing in French, and demonstrates how our modern literary world is more complex
