**The Politics of Abortion in the United States and Canada** Raymond Tatalovich 1997 Tatalovich (political science, Loyola U.) continues his studies on moral conflicts in public policy by examining the differences and similarities by which Canadian and US governments, political parties, and activists have addressed the issue of abortion. He discusses the history of the conflict since the 1950s, judicial activism and legislative responses, public opinion, party politics and elections, and federalism and the implementation problem. Having proposed models of a politicized America and depoliticized Canada, he concludes by comparing social convergence and institutional divergence. Paper edition (418-7) \$21.95. *Progrès de la coopération sur les eaux transfrontalières dans le cadre de la Convention sur l'eau* Economic Commission for Europe 2022-01-20 Cette publication présente et analyse les conclusions du premier exercice pilote de rapport dans le cadre de la Convention sur l'eau, réalisé en 2017. Les progrès réalisés dans la mise en œuvre de la Convention sont passés en revue et résumés, ainsi que l'identification des tendances significatives, des succès, des défis et des opportunités concernant la coopération transfrontalière dans le domaine de l'eau. Le mécanisme d'établissement de rapports au titre de la Convention a été formellement adopté (décision VII/2) par la Réunion des Parties à la Convention sur l'eau lors de sa septième session (Budapest, 17-19 novembre 2015).

**Russia's Foreign Security Policy in the 21st Century** Marcel De Haas 2010-04-05 This book examines Russia's external security policy under the presidencies of Vladimir Putin, Dmitry Medvedev and beyond. The Russian Federation has developed from a neglected regional power into a self-declared resurgent superpower. Russia's background in the former Soviet Union as well as close ties with the upcoming new powers of China and India served as spring-boards towards regaining an influential status in the world. Simultaneously, Moscow developed an assertive policy towards the West and unwilling neighbours, culminating in August 2008 in an armed conflict with Georgia. Reviewing this decade of Russian international security policy, this work analyses security documents, military reforms and policy actions towards friends and foes, such as the USA and NATO, to provide an assessment of the future security stance of the Kremlin. This book will be of much interest to students of Russian politics and foreign policy, European politics and Security Studies and IR in general.

**Cultural Strategies of Agenda Denial** Roger W. Cobb 1997 This is the first book devoted to examining

why some issues proposed by aggrieved individuals or groups are denied access to policy agendas. The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial--strategies usually motivated by perceived threats to widely held world views and identities.

Medical Ethics in the Ancient World Paul J. Carrick 2001-04-30 In this book Paul Carrick charts the ancient Greek and Roman foundations of Western medical ethics. Surveying 1500 years of pre-Christian medical moral history, Carrick applies insights from ancient medical ethics to developments in contemporary medicine such as advance directives, gene therapy, physician-assisted suicide, abortion, and surrogate motherhood. He discusses such timeless issues as the social status of the physician; attitudes toward dying and death; and the relationship of medicine to philosophy, religion, and popular morality. Opinions of a wide range of ancient thinkers are consulted, including physicians, poets, philosophers, and patients. He also explores the puzzling question of Hippocrates' identity, analyzing not only the Hippocratic Oath but also the Father of Medicine's lesser-known works. Complete with chapter discussion questions, illustrations, a map, and appendices of ethical codes, *Medical Ethics in the Ancient World* will be useful in courses on the medical humanities, ancient philosophy, bioethics, comparative cultures, and the history of medicine. Accessible to both professionals and to those with little background in medical philosophy or ancient science, Carrick's book demonstrates that in the ancient world, as in our own postmodern age, physicians, philosophers, and patients embraced a diverse array of perspectives on the most fundamental questions of life and death.

*Ru* Kim Thuy 2012-05-24 Ru: In Vietnamese it means lullaby; in French it is a small stream, but also signifies a flow - of tears, blood, money. Kim Thy's Ru is literature at its most crystalline: the flow of a life on the tides of unrest and on to more peaceful waters. In vignettes of exquisite clarity, sharp observation and sly wit, we are carried along on an unforgettable journey from a palatial residence in Saigon to a crowded and muddy Malaysian refugee camp, and onward to a new life in Quebec. There, the young girl feels the embrace of a new community, and revels in the chance to be part of the American Dream. As an adult, the waters become rough again: now a mother of two, she must learn to shape her love around the younger boy's autism. Moving seamlessly from past to present, from history to memory and back again, Ru is a book that celebrates life in all its wonder: its moments of beauty and sensuality, brutality and sorrow, comfort and comedy.

Terminology in Everyday Life Marcel Thelen 2010 "Terminology in Everyday Life" contains a selection of fresh and interesting articles by prominent scholars and practitioners in the field of terminology based on papers presented at an international terminology congress on the impact of terminology on everyday life. The volume brings together theory and practice of terminology and deals with such issues as the growing influence of European English on terminology, terminology on demand, setting up a national terminological infrastructure, the relevance of frames and contextual information for terminology, and standardisation through automated term extraction and editing tools. The book wants to demonstrate that terminology is of everyday importance and is of interest to everyone interested in the theory and practice of terminology,

from terminologists to computer specialists to lecturers and students.

**Contemporary Fiction in French** Anna-Louise Milne 2021-03-25 Our global literary field is fluid and exists in a state of constant evolution. Contemporary fiction in French has become a polycentric and transnational field of vibrant and varied experimentation; the collapse of the distinction between 'French' and 'Francophone' literature has opened up French writing to a world of new influences and interactions. In this collection, renowned scholars provide thoughtful close readings of a whole range of genres, from graphic novels to crime fiction to the influence of television and film, to analyse modern French fiction in its historical and sociological context. Allowing students of contemporary French literature and culture to situate specific works within broader trends, the volume provides an engaging, global and timely overview of contemporary fiction writing in French, and demonstrates how our modern literary world is more complex and diverse than ever before.

**An Introductory French Reader** Edward Hicks Magill 1870

Ru Kim Thúy 2011 Une femme voyage à travers le désordre des souvenirs : l'enfance dans sa cage d'or à Saigon, l'arrivée du communisme dans le Sud-Vietnam apeuré, la fuite dans le ventre d'un bateau au large du golfe de Siam, l'internement dans un camp de réfugiés en Malaisie, les premiers frissons dans le froid du Québec. Récit entre la guerre et la paix, Ru dit le vide et le trop-plein, l'égarement et la beauté. De ce tumulte, des incidents tragicomiques, des objets ordinaires émergent comme autant de repères d'un parcours. En évoquant un bracelet en acrylique rempli de diamants, des bols bleus cerclés d'argent, Kim Thuy restitue le Vietnam d'hier et d'aujourd'hui avec la maîtrise d'un grand écrivain.

Asymptotic Combinatorics with Applications to Mathematical Physics Anatoly M. Vershik 2003-07-03 At the Summer School Saint Petersburg 2001, the main lecture courses bore on recent progress in asymptotic representation theory: those written up for this volume deal with the theory of representations of infinite symmetric groups, and groups of infinite matrices over finite fields; Riemann-Hilbert problem techniques applied to the study of spectra of random matrices and asymptotics of Young diagrams with Plancherel measure; the corresponding central limit theorems; the combinatorics of modular curves and random trees with application to QFT; free probability and random matrices, and Hecke algebras.

Rethinking the French City Monique Yaari 2008-01 This book considers the post-68 French city as a prism through which to understand the contemporary world and France's specificity within it. The reader is invited to join in a series of exploratory strolls through texts, buildings, and neighborhoods, and thereby share in a process of discovery. Zeroing in on international architectural debates, a range of key Parisian exhibitions, and major urban design decisions in Paris, Montpellier, and Lille, Yaari unravels an often-acerbic French critique of both modern and postmodern positions on culture, technology, and the city. This critique—stemming from the competing claims of national identity, the ethics of architecture and display, and an anthropologically informed revision of prevailing views on the city—has sparked in France a passionate search for a third path, which the author proposes to term *après-moderne*. Breaking new ground in the field of French Studies through cultural analysis of the contemporary city, this study brings new insight to scholars and professionals in architecture and urbanism, and will interest all others for whom France and cities in general hold special appeal.
