A Pocket Dictionary of the French & English Languages
Léon Contanseau 1891

Rethinking the French City

Monique Yaari 2008-01 This book considers the post-68 French city as a prism through which to understand the contemporary world and France's specificity within it. The reader is invited to join in a series of exploratory strolls through texts, buildings, and neighborhoods, and thereby share in a process of discovery. Zeroing in on international architectural debates, a range of key Parisian exhibitions, and major urban design decisions in Paris, Montpellier, and Lille, Yaari unravels an often-acerbic French critique of both modern and postmodern positions on culture, technology, and the city. This critique—stemming from the competing claims of national identity, the ethics of architecture and display, and

an anthropologically informed revision of prevailing views on the city—has sparked in France a passionate search for a third path, which the author proposes to term *après-moderne*. Breaking new ground in the field of French Studies through cultural analysis of the contemporary city, this study brings new insight to scholars and professionals in architecture and urbanism, and will interest all others for whom France and cities in general hold special appeal.

An English - French Military

Dictionary Bill St. Amour 2012-07-24 This book is the "greatest hits" compilation of more than 100 French books, journals, papers and articles. It contains more than 15000 key French economic, legal, medical, military, political, scientific, sociological terms and colloquial phrases. It also contains important abbreviations. One look will convince you, the student or interpreter, of the value of this work!

runaway bestseller in Quebec,

with foreign rights sold to 15

countries around the world,

Kim Thúy's Governor General's

Literary Award-winning Ru is a

lullaby for Vietnam and a love

letter to a new homeland. Ru.

In Vietnamese it means lullaby;

in French it is a small stream,

but also signifies a flow - of

tears, blood, money. Kim

Thúy's Ru is literature at its

most crystalline: the flow of a

life on the tides of unrest and

on to more peaceful waters. In

vignettes of exquisite clarity,

sharp observation and sly wit,

we are carried along on an

unforgettable journey from a

palatial residence in Saigon to

a crowded and muddy

Malaysian refugee camp, and

onward to a new life in Quebec.

There, the young girl feels the

embrace of a new community,

and revels in the chance to be

part of the American Dream. As

an adult, the waters become

rough again: now a mother of

Alexander Spiers 1886

The Wandering Uterus Cheryl L. Meyer 1997-02-01 From the FDA review of RU-486 to the recent growth of fertility clinics to the rights of lesbian parents, women's reproductive lives are aggressively regulated by law and medicine. While a great deal has been written on such issues as abortion and postpartum depression, no single volume has offered a broad discussion of the interface between the legal, medical, and political aspects of women's reproduction in a

manner accessible and informative to non-specialists. *The Wandering Uterus* fills that gap. Taking her title from an ancient Greek belief that women's health problems were caused by a wandering uterus that needed to be confined and controlled, Meyer exposes the way in which myths and prejudice about female sexuality continue to influence the practice of law and medicine today. This book offers new insights and provides a wealth of up-to-date information on a subject that changes every day. The text is divided into three main parts: political issues of pre-conception, the politics of pregnancy, and the politics of motherhood. Throughout, Meyer argues passionately that while technology and medicine must progress, they should not be allowed to do so at women's expense.

Cultural Strategies of Agenda Denial Roger W. Cobb

1997 This is the first book devoted to examining why some issues proposed by aggrieved individuals or groups

The Politics of Abortion in the
United States and Canada

Raymond Tatalovich 1997
Tatalovich (political science,
Loyola U.) continues his
studies on moral conflicts in
public policy by examining the
differences and similarities by
which Canadian and US
governments, political parties,
and activists have addressed
the issue of abortion. He
discusses the history of the
conflict since the 1950s,
judicial activism and legislative
responses, public opinion,
party politics and elections,
and federalism and the
implementation problem.
Having proposed models of a
politicized America and
depoliticized Canada, he

concludes by comparing social
convergence and institutional
divergence. Paper edition

and interesting articles by prominent scholars and practitioners in the field of terminology based on papers presented at an international terminology congress on the impact of terminology on everyday life. The volume brings together theory and practice of terminology and deals with such issues as the growing influence of European English on terminology, terminology on demand, setting up a national terminological infrastructure, the relevance of frames and contextual information for terminology, and standardisation through automated term extraction and editing tools. The book wants to demonstrate that terminology is of everyday importance and is of interest to everyone interested in the theory and practice of terminology, from terminologists to computer specialists to lecturers and students.

An Introductory French Reader

Edward Hicks Magill 1870

Contemporary Fiction in

French Anna-Louise Milne

2021-03-25 Our global literary field is fluid and exists in a state of constant evolution.

Contemporary fiction in French has become a polycentric and transnational field of vibrant and varied experimentation; the collapse of the distinction between 'French' and 'Francophone' literature has opened up French writing to a world of new influences and interactions. In this collection, renowned scholars provide thoughtful close readings of a whole range of genres, from graphic novels to crime fiction to the influence of television and film, to analyse modern French fiction in its historical and sociological context.

Allowing students of contemporary French literature and culture to situate specific works within broader trends, the volume provides an engaging, global and timely overview of contemporary fiction writing in French, and demonstrates how our modern literary world is more complex and diverse than ever before.

*Medical Ethics in the Ancient
World* Paul J. Carrick

2001-04-30 In this book Paul
Carrick charts the ancient
Greek and Roman foundations
of Western medical ethics.
Surveying 1500 years of pre-
Christian medical moral
history, Carrick applies
insights from ancient medical
ethics to developments in
contemporary medicine such as
advance directives, gene
therapy, physician-assisted
suicide, abortion, and
surrogate motherhood. He
discusses such timeless issues
as the social status of the
physician; attitudes toward
dying and death; and the
relationship of medicine to
philosophy, religion, and
popular morality. Opinions of a
wide range of ancient thinkers
are consulted, including
physicians, poets, philosophers,
and patients. He also explores
the puzzling question of
Hippocrates' identity, analyzing
not only the Hippocratic Oath
but also the Father of
Medicine's lesser-known
works. Complete with chapter

discussion questions, illustrations, a map, and appendices of ethical codes, *Medical Ethics in the Ancient World* will be useful in courses on the medical humanities, ancient philosophy, bioethics, comparative cultures, and the history of medicine. Accessible to both professionals and to those with little background in medical philosophy or ancient science, Carrick's book demonstrates that in the

ancient world, as in our own postmodern age, physicians, philosophers, and patients embraced a diverse array of perspectives on the most fundamental questions of life and death.
