Innovative Solutions Apala Lahiri Chavan 2010-08-16 Expanding into emerging markets brings with it a specific set of challenges for designing products and services. Not only do cultural differences play a role in what, how, and why customers behave the way they do, but existing technologies, distribution channels, and the wants and needs of consumers become additional challenges when establishing market shares in the developing world. Innovative Solutions: What Designers Need to Know for Today's Emerging Markets describes the landscape of these new markets and discusses research and design methodologies tailored to them. Local designers and researchers offer insight directly from the depths of India, China, and other parts of the world. They take

an in-depth look at user research methods in underserved communities, new tools such as ecosystems mapping to define the elements impacting innovation and design decisions, and methodologies to develop solution spaces based on the output from user research studies. The book then presents real-life examples through case studies and interviews. The case studies draw not only from the authors' work with clients such as HP Labs, Nokia, Haier, Philips, Intel, and A Piece of Pie, but also from user experience and the results of innovation research across the globe. The interviews include conversations with leaders in innovation such as Roopa Purushothaman, Tapan Parikh, Ram Sehgal, Steve Portigal, Dmitry Volkov, and Darelle van Greunen. A fascinating perspective of the users and ecosystem in emerging nations, the book provides deeper insights on how a user-centered innovation and design approach has been applied in practical settings. Examining the challenges of innovating and designing for emerging markets, it incorporates research and practice to explore new ways of uncovering the riches and opportunities in innovation and design for emerging markets.

Corporate Social Responsibility and Employer Attractiveness Silke Bustamante 2022-01-08 This book investigates the preferences of young job seekers for different aspects of corporate social responsibility (CSR) in comparison to other non-CSR related employer attributes. It takes into account the potential influence of cultural and socio-economic variables and provides a differentiated global perspective. In its first part the book gives an overview about the impact of CSR on employer attractiveness and explains the factors that potentially influence CSR preferences of young job seekers all over the world. In a second part the research design is outlined and employer related preferences of 4783 graduates and students coming from 22 countries across the globe are discussed. In the third part, research results are presented for different cultural clusters. The most important criteria for employer choice of respondents are reflected against the socio-economic background and against the

characteristics of CSR of the countries in question. Finally, the results are summarized and implications for global employer branding are derived.

Words in Space and Time Tomasz Kamusella 2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The

main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In the Central European view, a “proper” nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.

Gender from Latin to Romance Michele Loporcaro 2017-12-01 This book explores grammatical gender in the Romance languages and dialects and its evolution from Latin. Michele Loporcaro investigates the significant diversity found in the Romance varieties in this regard; he draws on data from the Middle Ages to the present from all the Romance languages and dialects, discussing examples from Romanian to Portuguese and crucially also focusing on less widely-studied varieties such as Sursilvan, Neapolitan, and Asturian. The investigation first reveals that several varieties display more complex systems than the binary masculine/feminine contrast familiar from modern French or Italian. Moreover, it emerges that traditional accounts, whereby neuter gender was lost in the spoken Latin of the late Empire, cannot be correct: instead, the neuter gender underwent a range of different transformations from Late Latin onwards, which are responsible for the different systems that can be observed today across the Romance languages. The volume provides a detailed description of many of these systems, which in turns reveals a wealth of fascinating data, such as varieties where 'husbands' are feminine and others where 'wives' are

masculine; dialects in which nouns overtly mark gender, but only in certain syntactic contexts; and one Romance variety (Asturian) in which it appears that grammatical gender has split into two concurrent systems. The volume will appeal to linguists from a range of backgrounds, including Romance linguistics, historical linguistics, typology, and morphosyntax, and is also of relevance to those working in sociology, gender studies, and psychology.

Een rebelse meid Ru Freeman 2011-12-23 De elfjarige Latha is al sinds haar vijfde dienstmeid bij de familie Vithanage in Colombo en koestert haar band met Thara, de dochter des huizes, die even oud is als zij. Ze kent geen ander leven, maar van binnen weet Latha dat ze, net als Thara, recht heeft op verfijnde dingen als limoenlimonade en rozenzeep die ze dan ook steelt als niemand kijkt. Latha droomt van nieuwe sandalen, helemaal van haarzelf, in plaats van de afdankertjes van Thara, die ze al zo vaak heeft laten repareren. De vernederende manier waarop mevrouw Vithanage Latha op haar plaats zet als ze deze wens uit, doet iets in haar knappen. Ze beseft dat ze bovenal dienstmeid is en blijft, dat haar vriendschap met Thara een illusie is, dat ze onzichtbaar is, dat haar positie niet anders is dan die van alle andere dienstmeiden in de Sri Lankaanse standenmaatschappij. Haar roekeloze reactie blijkt verstrekkende gevolgen te hebben, niet alleen voor haarzelf, maar ook voor Thara en de andere mensen om haar heen.

Proceedings of the XV Conference of the Italian Association for Wind Engineering Francesco Ricciardelli 2019-03-12 This volume gathers the latest advances, innovations, and applications in the field of wind engineering, as presented by leading international researchers and engineers at the XV Conference of the Italian Association for Wind Engineering (IN-VENTO 2018), held in Naples, Italy on September 9-12, 2018. It covers highly diverse topics, including aeroelasticity, bluff-body aerodynamics, boundary layer wind tunnel testing, computational wind engineering, structural dynamics and reliability, wind-structure interaction, flow-induced vibrations, wind modeling and forecast, wind disaster mitigation, and wind climate assessment. The contributions, which were selected by means of a rigorous international peer-review

process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists.

Japanese Hiragana & Katakana for Beginners Timothy G. Stout 2013-11-21 The method that's helped thousands in the U.S. and Japan learn Japanese successfully. The Japanese language has two basic writing systems, hiragana and katakana, in addition to the one that uses Chinese characters or Kanji. This handy book teaches you a new mnemonics-based method to read and write the basic 92 hiragana and katakana characters. Along with its sister book: Japanese Kanji for Beginners it provides a complete introduction to written Japanese. Memorable picture mnemonics help you to learn the characters by associating their shapes and sounds with combinations of images and English words already familiar to you. Clear examples and entertaining exercises offer opportunities to read, write, use and practice all 46 basic hiragana and 46 basic katakana characters, plus the remaining kana that stand for more complex sounds. Polish your knowledge with word searches, crossword puzzles, fill-in-the-blanks, timed recognition quizzes, and other interesting activities. The downloadable audio allows you to print out your own flash cards (featuring the same mnemonic images taught in the book) to help you review and practice, even while you're on the go.
