The Last Empire Serhii Plokyh
2015-05-07 BY THE AUTHOR OF
CHERNOBYL: HISTORY OF A
TRAGEDY, WINNER OF THE
BAILLIE GIFFORD PRIZE 2018
WINNER OF THE PUSHKIN
HOUSE RUSSIAN BOOK PRIZE
2015 On Christmas Day 1991
Mikhail Gorbachev resigned as
president of the Soviet Union.
By the next day the USSR was
officially no more and the USA
had emerged as the world's
sole superpower. Award-
winning historian Serhii Plokyh
presents a page-turning
account of the preceding five

months of drama, filled with
failed coups d'état and political
intrigue. Honing in on this
previously disregarded but
crucial period and using
recently declassified documents
and original interviews with key
participants, he shatters the
established myths of 1991 and
presents a bold new
interpretation of the Soviet
Union's final months. Plokyh
argues that contrary to the
triumphalist Western narrative,
George H. W. Bush desperately
wanted to preserve the Soviet
Union and keep Gorbachev in
power, and that it was Ukraine

and not the US that played the key role in the collapse of the Soviet Union. The consequences of those five months and the myth-making that has since surrounded them are still being felt in Crimea, Russia, the US, and Europe today. With its spellbinding narrative and strikingly fresh perspective, *The Last Empire* is the essential account of one of the most important watershed periods in world history, and is indispensable reading for anyone seeking to make sense of international politics today.

Wolhuter 2022-09-01 *World Education Patterns in the Global South* surveys the educational responses and new educational landscapes being developed as a consequence of the powerful global forces that are demanding change within the Global South's educational contexts, including Central and South-East Asia, Latin America, and the Caribbean.

Holodomor and Gorta Mór

Christian Noack 2014-10-01 *Ireland's Great Famine or 'an Gorta Mór' (1845-51) and Ukraine's 'Holodomor' (1932-33)* occupy central places in the national historiographies of their respective countries.

Acknowledging that questions of collective memory have become a central issue in cultural studies, this volume inquires into the role of historical experiences of hunger and deprivation within the emerging national identities and national historical narratives of Ireland and Ukraine. In the Irish case, a solid body of research has been compiled over the last 150 years, while Ukraine's Holodomor, by contrast, was something of an open secret that historians could only seriously research after the demise of communist rule. This volume is the first attempt to draw these approaches together and to allow for a comparative study of how the historical experiences of famine were translated into narratives

that supported political claims for independent national statehood in Ireland and Ukraine. Juxtaposing studies on the Irish and Ukrainian cases written by eminent historians, political scientists, and literary and film scholars, the essays in this interdisciplinary volume analyse how national historical narratives were constructed and disseminated - whether or not they changed with circumstances, or were challenged by competing visions, both academic and non-academic. In doing so, the essays discuss themes such as representation, commemoration and mediation, and the influence of these processes on the shaping of cultural memory.

Ukraine Crisis Wilson, Andrew 2014-11-18 A leading Ukraine specialist and firsthand witness to the 2014 Kiev Uprising analyzes the world's newest flashpoint The aftereffects of the February 2014 Uprising in Ukraine are still reverberating around the world. The consequences of the popular rebellion and Russian President Putin's attempt to strangle it remain uncertain. In this book, Andrew Wilson combines a spellbinding, on-the-scene account of the Kiev Uprising with a deeply informed analysis of what precipitated the events, what has developed in subsequent months, and why the story is far from over. Wilson situates Ukraine's February insurgence within Russia's expansionist ambitions throughout the previous

decade. He reveals how President Putin's extravagant spending to develop soft power in all parts of Europe was aided by wishful thinking in the EU and American diplomatic inattention, and how Putin's agenda continues to be widely misunderstood in the West. The author then examines events in the wake of the Uprising—the military coup in Crimea, the election of President Petro Poroshenko, the Malaysia Airlines tragedy, rising tensions among all of Russia's neighbors, both friend and foe, and more. Ukraine Crisis provides an important, accurate record of events that unfolded in Ukraine in 2014. It also rings a clear warning that the unresolved problems of the region have implications well beyond Ukrainian borders.

War and Memory in Russia, Ukraine and Belarus

Julie Fedor 2017-12-05 This edited collection contributes to the current vivid multidisciplinary debate on East European memory politics and the post-communist instrumentalization and re-mythologization of World War II memories. The book focuses on the three Slavic countries of post-Soviet Eastern Europe – Russia, Ukraine and Belarus – the epicentre of Soviet war suffering, and the heartland of the Soviet war myth. The collection gives insight into the persistence of the Soviet commemorative culture and the myth of the Great Patriotic War in the post-Soviet space. It also demonstrates that for geopolitical, cultural, and historical reasons the political uses of World War II differ significantly across Ukraine, Russia and Belarus, with important ramifications for future developments in the region and beyond. The chapters 'Introduction: War and Memory in Russia, Ukraine and

Belarus', 'From the Trauma of Stalinism to the Triumph of Stalingrad: The Toponymic Dispute over Volgograd' and 'The “Partisan Republic”: Colonial Myths and Memory Wars in Belarus' are published open access under a CC BY 4.0 license at link.springer.com. Ukraine Over the Edge

Gordon M. Hahn 2017-11-22

The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making. Two great schisms shaped events: one within Ukraine, its western and southeastern parts divided along cultural and political lines; the other was driven by geopolitical factors.

Competition between Russia and the West exacerbated Ukraine's divisions. This study focuses on the historical background and complex causality of the crisis, from the rise of mass demonstrations on Kiev's Maidan Nezalezhnosti (Independence Square) to the making of the post-revolt regime. In the context of a "new cold war," the author sheds light on the role of radical Ukrainian nationalists

and neofascists in the February 2014 snipers' massacre, the ouster of President Viktor Yanukovich, and Russia's seizure of Crimea and involvement in the civil war in the eastern region of Donbass. Belarus Piotra P. Murzionak 2022-03-18 This study examines Belarusian history since the ninth century CE. The author analyzes issues surrounding Belarusian society regarding identity, religion, elites, and recent events since 2020 and argues for a Western-oriented identity.

Borderlands into Bordered Lands Tatiana 2014-04-15

Since 1991, post-Soviet political elites in Ukraine, Russia, and Belarus have been engaged in nation- as well as state-building. They have tried to strengthen territorial sovereignty and national security, re-shape collective identities and re-narrate national histories. Former Soviet republics have become new neighbours, partners, and

competitors searching for geopolitical identity in the new "Eastern Europe", i.e. the countries left outside the enlarged EU. Old paradigms such as "Eurasia" or "East Slavic civilisation" have been re-invented and politically instrumentalized in the international relations and domestic politics of these countries. At the same time, these old concepts and myths have been contested and challenged by pro-Western elites. *Borderlands into Bordered Lands* examines the construction of post-Soviet borders and their political, social, and cultural implications. It focuses on the exemplary case of the Ukrainian-Russian border, approaching it as a social construct and a discursive phenomenon. Zhurzhenko shows how the symbolic meanings of and narratives on this border contribute to national identity formation and shape the images of the neighbouring countries as "the Other" thereby shedding new light on the role of border disputes

between Ukraine and Russia in bilateral relations, in EU neighbourhood politics and in domestic political conflicts. Zhurzhenko also addresses 'border making' on the regional level, focusing on the cross-border cooperation between Kharkiv and Belgorod and on the dilemmas of a Euroregion 'in absence of Europe': Finally, she reflects the everyday experiences of the residents of near-border villages and shows how national and local identities are performed at, and transformed by, the new border. *Borderlands into Bordered Lands* was honored by the American Association for Ukrainian Studies as best book 2009/2010 in the field of Ukrainian history, politics, language, literature and culture. Written by a team of international lawyers from Europe, Asia, Africa, and the Caribbean, this book analyses some of the most significant aspects of the ongoing armed conflict between the Russian Federation and Ukraine. As challenging as this conflict is for the international legal order, it also offers lessons to be learned by the States concerned, and by other States alike. The book analyses the application of international law in this conflict, and suggests ways for this law's progressive development. It will be useful to practitioners of international law working at national Ministries of Defence, Justice, and Foreign Affairs, as well as in Parliaments, to lawyers of international organizations, and to national and international judges dealing with matters of public international law, international humanitarian law and criminal law. It will also be of interest to scholars and students of international law, and to historians of international relations. Sergey Sayapin is

Assistant Professor in International and Criminal Law at the School of Law of the KIMEP University in Almaty, Kazakhstan. Evhen Tsybulenko is Professor of Law at the Department of Law of the Tallinn University of Technology in Tallinn, Estonia.

The Concept of Genocide in International Criminal Law
Marco Odello 2020-07-14 This book presents a review of historical and emerging legal issues that concern the interpretation of the international crime of genocide. The Polish legal expert Raphael Lemkin formulated the concept of genocide during the Nazi occupation of Europe, and it was then incorporated into the 1948 Convention on the Prevention and Punishment of the Crime of Genocide. volume looks at the issues that are raised both by the existing international law definition of genocide and by the possible developments that continue to emerge under international criminal law. The authors consider how the concept of genocide might be used in different contexts, and see whether the definition in the 1948 convention may need some revision, also in the light of the original ideas that were expressed by Lemkin. The book focuses on specific themes that allow the reader to understand some of the problems related to the legal definition of genocide, in the context of historical and recent developments. As a valuable contribution to the debate on the significance, meaning and application of the crime of genocide the book will be essential reading for students and academics working in the areas of Legal History, International Criminal Law, Human Rights, and Genocide Studies.

Redefining Capitalism in Global Economic

Development Kui-Wai Li

2017-06-07 Redefining Capitalism in Global Economic Development reconsiders capitalism by taking into account the unfolding forces of economic globalization, especially in Asian economies. It explores the economic implications and consequences of recent financial crises, terrorism, ultra-low interest rates that are decades-long, debt-prone countries and countries with large trade surpluses. The book illuminates these economic implications and consequences through a framework of capitalist ideologies and concepts, recognizing that Asia is redefining capitalism today. The author, Li, seeks not to describe why nations fail, but how the sustainability of capitalism can save the world. Merges capitalist theory with global events, as few books do. Emphasizes ways to interpret capitalist ideas in light of current global affairs Reframes

capitalism via economics, supported by insights from political science, sociology, international relations and peace studies

Whose Memory? Which Future?

Barbara Törnquist-Plewa 2016-04-01 Scholars have

devoted considerable energy to understanding the history of ethnic cleansing in Europe, reconstructing specific events, state policies, and the lived experiences of victims. Yet much less attention has been given to how these incidents persist in collective memory today. This volume brings together interdisciplinary case studies conducted in Central and Eastern European cities, exploring how present-day inhabitants “remember” past instances of ethnic cleansing, and how they understand the cultural heritage of groups that vanished in their wake. Together these contributions offer insights into more universal questions of collective memory and the formation of national identity.
