2007 Pooling the expertise of leading researchers
Issues in Management Accounting critically
explores a broad range of issues in a concise,
digestible style. Both students and practitioners
specialising in this area will find this book an
essential guide to the many developments affecting
management accounting theory and practice.

The Man Who Got Carter Andrew Spicer
2013-10-24 Michael Klinger was the most successful
independent producer in the British film industry
over a 20 year period from 1960 to 1980, responsible
for 32 films, including classics such as *Repulsion*
(1965) and *Get Carter* (1971). Despite working with
many famous figures- including actors Michael
Caine, Peter Finch, Lee Marvin, Roger Moore,
Mickey Rooney and Susannah York; directors
Claude Chabrol, Mike Hodges and Roman Polanski
and author Wilbur Smith- Klinger's contribution to
British cinema has been almost largely ignored.
This definitive book on Micheal Klinger, largely

based on his previously unseen personal papers,
examines his origins in Sixties Soho 'sexploitation'
cinema and 'shockumentaries' through to major
international productions including *Gold* (1974) and
Shout at the Devil (1976). It reveals how Klinger
deftly combined commercial product-the hugely
popular 'Confessions' series (1974-78)- with artistic,
experimental cinema that nurtured young talent,
including Polanski and Hodges, Peter Colinson,
Alastair Reid, Linda Hayden and Moshe Mizrahi,
the Israeli director of *Rachel's Man* (1975). Klinger's
career is contextualised through a reassessment of
the British film industry during a period of
unprecedented change and volatility as well as
highlighting the importance of his Jewishness. The
Man Who Got Carter offers a detailed analysis of the
essential but often misunderstood role played by the
producer.

*Sensors And Microsystems: Proceedings Of The 3rd
Italian Conference* Corrado Di Natale 1998-12-31

This book is testimony to the degree of
advancement in the research and development of
sensors in Italy. It covers the typical areas of sensors
and microsystems, such as chemical and biological
sensors, physical sensors, optical sensors and
micromechanics. As in previous proceedings of the
Italian Conference on Sensors and Microsystems, a

section of this book is devoted to advanced sensor applications. The book focuses on the development of sensors for the human body, and the relationship between human bodies and sensor systems.

Advances in Italian Mechanism Science Giovanni Boschetti 2016-11-04 This volume contains the Proceedings of the First International Conference of IFToMM Italy (IFIT2016), held at the University of Padova, Vicenza, Italy, on December 1-2, 2016. The book contains contributions on the latest advances on Mechanism and Machine Science. The fifty-nine papers deal with such topics as biomechanical engineering, history of mechanism and machine science, linkages and mechanical controls, multi-body dynamics, reliability, robotics and mechatronics, transportation machinery, tribology, and vibrations.

Foreign Agricultural Economic Report 1961

Italian Economic Papers Luigi L. Pasinetti 1993 The first in a series, this annual work contains a selection of the best papers by Italian economists previously unavailable in English. It includes classic and contemporary works, often introducing neglected works. Contributors include Barone, Pareto, Pantaleoni, as well as Amoroso, Egidi, and Sraffa. They discuss topics such as taxation, defining consumer behavior, and consumption/growth rate relations.

General Relativity And Gravitational Physics - Proceedings Of The 8th Italian Conference Cerdonio Massimo 1989-04-01 This conference reviewed the current status of General Relativity and Classical Theories of Gravitation, Relativistic Astrophysics and Cosmology, Experimental and Observational Gravitation, Supergravity and Quantum Gravity.

Once Upon A Time in the Italian West Howard Hughes 2006-03-31 The ideal popular guide to the key Spaghetti Westerns - mainly the good but also the bad and the ugly - this is an authoritative, entertaining and comprehensive companion to the films that created the mythical Spaghetti West in the most improbable circumstances. Sergio Leone's "Dollars" trilogy is covered, with many more major

and minor Spaghetti Westerns, including Sergio Corbucci's "Navajo Joe", Carlo Lizzani's "The Hills Run Red" and Duccio Tessari's "A Pistol for Ringo". This popular guide explores the films through the biographies and filmographies of key personnel, stories of the films' making, their locations and sets, sources, musical scores, detailed cast information, box office fortunes internationally, with many illustrations, including original posters and stills.

La «cavalleria umanistica» italiana / The Italian "Humanistic Chivalry" Antoni Ferrando 2021-11-15

This book aims to contribute to the knowledge of the cultural and linguistic relations between Italy and the Crown of Aragon in the 15th century. In particular, it studies some relevant aspects of the chivalric romance entitled *Curial e Guelfa*, written in Italy around 1443-1448 in Catalan, but mainly Italian in spirit, sources and onomastics. It is probably the very first work of a genre known as "humanistic chivalry", the epitome of which will be Ariosto's *Orlando furioso*. The literary context of Milan and Naples (The Three Crowns, Troubadour Lyrics, Humanism) is analyzed in the first part of the volume. It is this context that made possible the gestation of the *Curial*, an extraordinary anonymous romance, which was most likely written by the knight Enyego d'Àvalos (Inico d'Avalos), born in Toledo but raised in Valencia. The second part of the volume is devoted to the study of some lexical, stylistic and syntactic aspects of the *Curial*, which show the author's excellent knowledge of Catalan and the constant influence of Italian in the romance. Questo libro si propone di contribuire alla conoscenza delle relazioni culturali tra l'Italia e la Corona d'Aragona nel XV secolo. In particolare, studia il romanzo dal titolo *Curial e Güelfa*, scritto in Italia intorno al 1443-1448, dotato di italianità, fonti e onomastica, ma scritto in catalano. È probabilmente la primissima opera di un genere noto come "cavalleria umanistica", la cui epitome sarebbe l'*Orlando Furioso* dell'Ariosto. Questo volume analizza il contesto letterario di Milano e Napoli che ha reso possibile questo straordinario romanzo

anonimo, di cui conosciamo ormai con quasi assoluta certezza che il suo autore era Enyego o Inico d'Avalos. I contributi in questo volume approfondiscono alcuni degli aspetti lessicali, stilistici e sintattici di Curial e Güelfa, e mettono in evidenza l'eccellente conoscenza del catalano da parte del suo autore, nonché la presenza onnipresente della lingua italiana. El libro pretende contribuir al conocimiento de las relaciones culturales entre Italia y la Corona de Aragón en el siglo XV. En concreto se ocupa de la novela Curial e Güelfa, gestada en Italia hacia 1443-1448, de espíritu, fuentes y onomástica principalmente italianos, pero redactada en lengua catalana. Es probablemente la manifestación más primeriza del género literario conocido como "caballería humanística", que tendrá su punto culminante con el Orlando furioso, d'Ariosto. Este volumen analiza el contexto literario de Milán y Nápoles que hizo posible esta extraordinaria novela anónima, de la que ahora sabemos con casi absoluta certeza que su autor fue Enyego o Inico d'Avalos. Las contribuciones de este volumen profundizan en algunos de los aspectos léxicos, estilísticos y sintácticos de Curial e Güelfa, y destacan el excelente conocimiento del catalán de su autor, así como la presencia onnipresente de la lengua italiana.

Italian Colonialism and Resistances to Empire, 1930-1970 Neelam Srivastava 2018-02-01 This book provides an innovative cultural history of Italian colonialism and its impact on twentieth-century ideas of empire and anti-colonialism. In October 1935, Mussolini's army attacked Ethiopia, defying the League of Nations and other European imperial powers. The book explores the widespread political and literary responses to the invasion, highlighting how Pan-Africanism drew its sustenance from opposition to Italy's late empire-building, and reading the work of George Padmore, Claude McKay, and CLR James alongside the feminist and socialist anti-colonial campaigner Sylvia Pankhurst's broadsheet, *New Times and Ethiopia News*. Extending into the postwar period, the book examines the fertile connections between anti-colonialism and anti-fascism in Italian literature and art, tracing the emergence of a "resistance aesthetics" in works such as *The Battle of Algiers* and Giovanni Pirelli's harrowing books of testimony about Algeria's war of independence, both inspired by Frantz Fanon. This book will interest readers passionate about postcolonial studies, the history of

Italian imperialism, Pan-Africanism, print cultures, and Italian postwar culture.

A Cultural Journey through the English Lexicon

Roberto Facchinetti 2012-01-17 This book is a

metaphorical journey through the English lexicon,

viewed as a vehicle and a mirror of cultural

identity. From the translatability of phrases and

metaphors to genre-specific terms, from English as a

Lingua Franca to English language teaching, the

studies collected here testify to the fact that in

English – and overall in language – word

contextualization or lack of contextualization

impinges on linguistic utterances and leads to

differing interpretations of the textual message. The

book may be of interest to a wide range of scholars

and students who are concerned with the study of

the English lexicon, bearing in mind that this

lexicon provides the bricks of any language, and

language, in turn, needs the cornerstone of Culture

to stand firmly and thrive.

The Complexity Turn Arch G. Woodside

2017-02-16 This book takes the reader beyond net

effects and main and interaction effects thinking

and methods. Complexity theory includes the tenet

that recipes are more important than

ingredients—any one antecedent (X) condition is

insufficient for a consistent outcome (Y) (e.g.,

success or failure) even though the presence of

certain antecedents may be necessary. A second

tenet: modeling contrarian cases is useful because a

high or low score for any given antecedent

condition (X) associates with a high Y, low Y, and is irrelevant for high/low Y in some recipes in the same data set. Third tenet: equifinality happens—several recipes indicate high/low outcomes.

Politics of Segmentation Georg Picot 2013-06-17

When political parties make policy decisions they

are influenced by the competition they face from

other parties. This book examines how party

competition and party systems affect reforms of

social protection. Featuring a historical comparison

of Italy and Germany post-1945, the book shows

how a high number of parties and ideological

polarisation lead to fragmented and unequal social

benefits. Utilising a comparative approach, the

author brings together two important issues in

welfare state research that have been insufficiently

investigated. Firstly, the complex influence of party

competition on social policy-making, and second,

how some social groups enjoy better social

protection than others. Moving beyond the two

countries of the case study, the book proposes an

innovative framework for studying segmentation of

social protection and applies this framework to a

wider set of 15 advanced welfare states. Overall,

this book draws together different strands of

research on political parties and on welfare states,

and introduces a new argument on how party

politics shapes social policy. An invaluable text on

the political economy of the welfare state, *Politics of*

Segmentation will be of interest to scholars of

political economy, social policy and comparative

politics.

European Yearbook / Annuaire Europeen 1974

Council of Europe/Conseil de L'Europe 1976-08-01

The "European Yearbook promotes the scientific

study of nineteen European supranational

organisations and the Organisation for Economic Co-

operation and Development (OECD). Each volume

contains a detailed survey of the history, structure

and yearly activities of each organisation and an up-

to-date chart providing a clear overview of the

member states of each organisation. Each volume

contains a comprehensive bibliography covering the year's relevant publications.

Organisational Behaviour Ian Brooks 2009 A succinct, lively and robust introduction to the subject of OB that offers clear, focussed coverage of the most important topics in an accessible way. Brooks et al aims to encourage critical examination of the theory of organisational behaviour whilst also enabling students to interpret and deal with real organisational problems. It has proved a popular student choice because it combines relative brevity with thorough coverage and plentiful real-world examples. This book is particularly well-suited to short or introductory courses or those requiring a concise but broad introduction to organisational behaviour.

Italian Pocket Dictionary Giuspanio Graglia 1833

Refugee, Migrant and Ethnic Minority Health Osnat Keidar 2019-10-07 International migration, particularly to Europe, has increased in the last few decades, making research on aspects of this phenomenon, including numbers, challenges, and successes, particularly vital. This Special Issue highlights this necessary and relevant area of research. It presents 37 articles including studies on diverse topics relating to the health of refugees and migrants. Most articles (28) present studies focusing on European host countries. The focus on Europe is justified if we take into consideration the increased number of refugees and migrants who have come to Europe in recent years. However, there are also articles which present studies from countries in

other continents. The topics discussed in the Issue include healthcare utilization, infectious diseases, mother and child health, mental health, and chronic diseases. Finding from the included articles indicate that further development of guidelines and policies at both local and international levels is needed.

Priorities must be set by encouraging and funding in-depth research that aims to evaluate the impact of existing policies and interventions. Such research will help us formulate recommendations for the development of strategies and approaches that improve and strengthen the integration of migrants and refugees into the host countries.

United Artists, Volume 2, 1951–1978 Tino Balio 2009-04-08 In this second volume of Tino Balio's history of United Artists, he examines the turnaround of the company in the hands of Arthur Krim and Robert Benjamin in the 1950s, when United Artists devised a successful strategy based on the financing and distribution of independent production that transformed the company into an industry leader. Drawing on corporate records and interviews, Balio follows United Artists through its merger with Transamerica in the 1960s and its sale to MGM after the financial debacle of the film *Heaven's Gate*. With its attention to the role of film as both an art form and an economic institution, *United Artists: The Company That Changed the Film Industry* is an indispensable study of one company's fortunes from the 1950s to the 1980s and a clear-eyed analysis of the film industry as a whole. This edition includes an expanded introduction that examines the history of United Artists from 1978 to 2008, as well as an account of Arthur Krim's attempt to mirror UA's success at Orion Pictures from 1978 to 1991.

Political Parties and Democratic Linkage Russell J. Dalton 2011-09-29 *Political Parties and Democratic Linkage* examines how political parties ensure the functioning of the democratic process in contemporary societies. Based on unprecedented cross-national data, the authors find that the process of party government is still alive and well in most

contemporary democracies.

Forms of Enterprise in 20th Century Italy Andrea Colli 2010-01-01 This book provides a wide-ranging analysis of change in size and nature of Italian firms, and thus a unique and fascinating perspective on the evolution of one of the major industrial economies of the 20th century. An example of business history as it ought to be done. Giovanni Federico, European University Institute, Italy This book is necessary reading for a real understanding of the evolution of Italian capitalism during the last century. It moves away from a simplified view of the Italian industrial structure as just composed by small enterprises and successfully sheds light on the variety of different forms of enterprises the compose Italian system. The lively picture that emerges from this book is the one of richer types of enterprises, which have evolved over time and have contributed in different ways to Italian economic growth. Franco Malerba, Bocconi University, Italy Taking an historical perspective, this unique book highlights the evolution of the many diverse forms of business enterprise, and discusses the contribution of these different types of firm to the economic growth of Italy. One important issue that has recently captured the attention and the research efforts of both economists

and economic historians has been the debate on varieties of capitalism in the modern world. In this context, the expert contributors analyze the various stages of Italian development that have been characterized by diverse dominating forms of enterprise which, in turn, have adapted to the nature of technological and market opportunities at the institutional, national and international level. This book proposes a new interpretation of the Italian case that utilizes both the structural and macroeconomic perspective of comparative history, as well as the microeconomic perspectives focusing on the strategies of different economic agents. Based on solid quantitative evidence, this original work will prove to be a valuable resource for academics and students of strategy and organization, economic historians and applied economists.

Biographical Index of the Middle Ages /

Biographischer Index des Mittelalters / Index

Biographique du Moyen-Âge 2008-01-01 The index to the Biographical Archive of the Middle Ages makes accessible about 130,000 biographical articles from nearly 200 volumes. The entries contain short biographical information on approx. 95,000 persons from Europe and the Middle East who shaped the cultural development and the religious life during one thousand years.
