The Complexity Turn Arch G. Woodside

2017-02-16 This book takes the reader beyond

net effects and main and interaction effects thinking and methods. Complexity theory includes the tenet that recipes are more important than ingredients—any one antecedent (X) condition is insufficient for a consistent outcome (Y) (e.g., success or failure) even though the presence of certain antecedents may be necessary. A second tenet: modeling contrarian cases is useful because a high or low score for any given antecedent condition (X) associates with a high Y, low Y, and is irrelevant for high/low Y in some recipes in the same data set. Third tenet: equifinality happens—several recipes indicate high/low outcomes.

User Modeling, Adaptation and Personalization

Joseph Konstan 2011-06-28 This book

constitutes the proceedings of the third annual

conference under the UMAP title, aptation,

which resulted from the merger in 2009 of the

successful biannual User Modeling (UM) and

Adaptive Hypermedia (AH) conference series,

held on Girona, Spain, in July 2011. The 27 long

papers and 6 short papers presented together

with 15 doctoral consortium papers, 2 invited

talks, and 3 industry panel papers were carefully

reviewed and selected from 164 submissions.

The tutorials and workshops were organized in

topical sections on designing adaptive social

applications, semantic adaptive social Web, and

designing and evaluating new generation user

modeling.

From Our Table to Yours: A Collection of Filipino Heirloom Recipes & Family

Memories Angelo Comsti 2013-07-15 From Our

Table to Yours: A Collection of Filipino Heirloom

Recipes & Family Memories is not just a

cookbook of time-tested recipes, but also a

treasure trove of stories from some of the

country's most influential foodies. This showcase of generations-old, time-honoured dishes, many of which have been forgotten, are embellished with photographs and personal narratives that make the dishes all the more special and worth sharing. About the Author: Angelo F. Comsti has long been working with food. He is a food writer, food stylist, recipe developer and demo cook. He recently added more titles to his credentials—as a bona fide chef, graduating from Le Cordon Bleu in Sydney and becoming a deli owner, heading the kitchen operations of The Food Barn, a neighbourhood snack bar serving gourmet sandwiches. He turns down no opportunity for more adventures as long as they deal with food.

Accurate Case Outcome Modeling Arch G. Woodside 2019-11-15 This volume advocates accurate case outcome prediction that does not rely on symmetric modeling. To that end, it provides theory construction and testing applications in several sub-disciplines of business and the social sciences to illustrate how to move away from symmetric theory construction. Each chapter constructs case outcome theory and includes empirical analysis of outcomes. Chapter 1 provides a foundation of symmetric variable directional-relationship theory construction and null hypothesis significance testing versus asymmetric case outcome theory construction and somewhat precise outcome testing, while Chapters 2-6 investigate these principles through a range of applications. This volume will be very useful to researchers and professionals in manufacturing, service, consulting, management, marketing, organizational studies, and more. It will also be an excellent resource for advanced statistics students in building and testing case outcome models. Data sets are included so that readers can replicate findings presented in each chapter, and grow to present and test additional theories.
Martha Stewart's Everyday Light Martha Stewart 2013 From the Queen of American cookery comes a fabulous collection of recipes - all 500 calories or less, and all big on flavour! Martha Stewart knows it's not enough for home cooks to prepare tasty weeknight meals in a flash - they also need to be healthy and appealing for the whole family. Martha Stewart's *Everyday Light* features delicious, low-fat recipes that are made with accessible ingredients, and each recipe is accompanied by beautiful colour photography to keep you inspired and cooking light every day of the week. The recipes, which are organised seasonally, include salads, soups, stews, main courses, easy sides, desserts, and more. You'll find slimmed-down favourites, such as Beef Chilli, Chicken Parmesan, and deceptively skinny Chocolate-Chunk Brownies, plus new delights such as Spicy Chicken Stir-Fry with Peanuts and Salmon Burgers with Yoghurt-Dill Sauce. With basic low-fat cooking techniques (stir-frying, cooking in parchment, grilling), tips on the 10 best ways to

boost flavour without adding fat (including marinades, dressings, herbs and spices), and simple tools for low-calorie cooking (cast-iron skillets and grill pans and steamer baskets), Martha Stewart's Everyday Light helps you cook the kind of delicious, healthy food you really want to eat!

Progress in Computing, Analytics and Networking Himansu Das 2020-03-26 This book focuses on new and original research ideas and findings in three broad areas: computing, analytics, and networking and their potential applications in the various domains of engineering - an emerging, interdisciplinary area in which a wide range of theories and methodologies are being investigated and developed to tackle complex and challenging real-world problems. The book also features keynote presentations and papers from the International Conference on Computing Analytics and Networking (ICCAN 2019), which offers an open forum for scientists, researchers and technocrats in academia and industry from around the globe to present and share state-of-the-art concepts, prototypes, and innovative research ideas in diverse fields. Providing inspiration for postgraduate students and young researchers working in the field of computer science & engineering, the book also discusses hardware technologies and future communication technologies, making it useful for those in the field of electronics.

Recipes from Historic Colorado Linda Bauer 2008-04-28 Some of the best cuisine in Colorado can be enjoyed at a diversity of historic locales, from classic diners, to dude ranches, to old hotels, and even a former filling station. Please your palate as well as your appetite for historical trivia as you prepare chilled zucchini soup from Denver's Castle Marne, Spanish flan from the Twin Owls Steakhouse in Estes Park, coconut barbecue sauce from the Laramie River Ranch in North Park, or seafood gumbo from the Royal Gorge Route Railroad. A number of the recipes are historic in themselves, offering such time-honored delicacies as prime rib of buffalo from

Denver's Buckhorn Exchange to The Fort in Morrison's cast iron cobbler. Intriguing stories combined with delicious recipes from some of the finest restaurants in the world are your tickets to discovering the wonders of dining in historic Colorado!

A Recipe for Gentrification Alison Hope Alkon 2020-07-14 How gentrification uproots the urban food landscape, and what activists are doing to resist it From hipster coffee shops to upscale restaurants, a bustling local food scene is perhaps the most commonly recognized harbinger of gentrification. A Recipe for Gentrification explores this widespread phenomenon, showing the ways in which food and gentrification are deeply—and, at times, controversially—intertwined. Contributors provide an inside look at gentrification in different cities, from major hubs like New York and Los Angeles to smaller cities like Cleveland and Durham. They examine a wide range of food enterprises—including grocery stores, restaurants, community gardens, and farmers' markets—to provide up-to-date perspectives on why gentrification takes place, and how communities use food to push back against displacement. Ultimately, they unpack the consequences for vulnerable people and neighborhoods. A Recipe for Gentrification highlights how the everyday practices of growing, purchasing and eating food reflect the rapid—and contentious—changes taking place in American cities in the twenty-first century.

User Modeling, Adaptation, and Personalization Paul De Bra 2010-06-01 The LNCS series reports state-of-the-art results in computer science research, development, and education, at a high level and in both printed and electronic form. Enjoying tight cooperation with the R&D community, with numerous individuals, as well as with prestigious organizations and societies,

LNCS has grown into the most comprehensive computer science research forum available. The scope of LNCS, including its subseries LNAI and LNBI, spans the whole range of computer science and information technology including interdisciplinary topics in a variety of application fields. In parallel to the printed book, each new volume is published electronically in LNCS Online. Detailed information on LNCS can be found at www.springer.com/Incs Proposals for publication should be sent to LNCS Editorial, Tiergartenstr. 17, 69121 Heidelberg, Germany E-mail: Incs@springer.com

Pa Pa Tuck's Cookbook Peter E. Tucker 2009-10 In today's world of fast food and packaged meals, modern families lack the skills to prepare home-cooked meals. But eating homemade food is not only healthier and cheaper, it brings back valuable family time that is often missed at the drive-through window. Out to change all that, Pa Pa Tuck's Cook Book is more than just a book of recipes. It is a step-by-step guide for first-time cooks that teaches them how to prepare such classic family feasts as baked smoked ham, Christmas pasta, homemade bread, Great Gram's corn chowder, and much more. If you are looking to bring your family to the dinner table again, this book will inspire you to create a new family tradition of cooking that will be shared for generations. For Peter Tucker, the process of cooking is as important as the product. Meals are a family affair meant to create memories and a strong family bond. His inspiration comes from his 101-year-old Great Gram, who used to say, "The way to a man's heart is through his stomach." The meals in Pa Pa Tuck's have been passed down through his family for six generations. He sees the book as a way to share his recipes with a new generation of readers.
